STATEMENT

10

11 This bill would allow, beginning on August 10, 2009, an owner  
12 of property located in the Highlands preservation area to request  
13 that the property be excluded from the preservation area under  
14 certain circumstances. Specifically, this bill would provide that  
15 when an owner of property located within the preservation area  
16 offers that property for sale to the State and the State rejects the  
17 offer due to the lack of available funding to purchase the property at  
18 an amount equal to a fair market value appraisal of the value of the  
19 lands as of August 9, 2004 (the day before the date of enactment of  
20 the "Highlands Water Protection and Planning Act," P.L.2004,  
21 c.120), that property owner may request that the property be  
22 removed from the preservation area. Under the bill, upon written  
23 request by the property owner to the Commissioner of  
24 Environmental Protection and the Chair of the Highlands Water  
25 Protection and Planning Council containing documentation from the  
26 State that the State does not have funds available to purchase the  
27 property at a price equal to the value of the lands as of August 9,  
28 2004, the property would be exempt from the provisions of sections  
29 30 through 43 of P.L.2004, c.120 (C.13:20-28 et al.) and would be  
30 regulated by the State and the local government unit in the same  
31 manner as property located in the planning area.

32 The bill would apply to lands the owners of which at the time of  
33 the proposed sale to the State is the same person who owned the  
34 lands on the date of enactment of the "Highlands Water Protection  
35 and Planning Act" and who has owned the lands continuously since  
36 then, or is an immediate family member of that person.

37 The bill would require that the property be excluded from the  
38 preservation area and would require this exclusion to be recorded  
39 on the deed of the property. The bill would require the  
40 Commissioner of Environmental Protection and the Chair of the  
41 Highlands Water Protection and Planning Council to take all  
42 appropriate action to note the exclusion of such a property on all  
43 maps and descriptions of the preservation area prepared or  
44 published by the Department of Environmental Protection or the  
45 council.
