

SENATE, No. 1280

STATE OF NEW JERSEY 217th LEGISLATURE

INTRODUCED FEBRUARY 8, 2016

Sponsored by:

Senator JOSEPH F. VITALE

District 19 (Middlesex)

Senator LORETTA WEINBERG

District 37 (Bergen)

Co-Sponsored by:

Senator Gordon

SYNOPSIS

Establishes minimum registered professional nurse staffing standards for hospitals and ambulatory surgery facilities and certain DHS facilities.

CURRENT VERSION OF TEXT

As introduced.

(Sponsorship Updated As Of: 6/23/2017)

1 AN ACT concerning nurse staffing standards in inpatient health care
2 facilities and certain State facilities and supplementing Titles 26
3 and 30 of the Revised Statutes.

4
5 **BE IT ENACTED** *by the Senate and General Assembly of the State*
6 *of New Jersey:*

7
8 1. The Legislature finds and declares that:

9 a. Because of recent changes in the health care delivery
10 system, patients in general and special hospitals and ambulatory
11 surgery facilities in the State, and in State developmental centers
12 and psychiatric hospitals, generally have higher acuity levels than in
13 the past;

14 b. Recent studies demonstrate the link between adequate
15 registered professional nurse staffing and improved mortality rates
16 and quality of care among patients in health care facilities;

17 c. Inadequate nurse staffing can result in dangerous medical
18 errors, patient infections, and increased injuries to patients and
19 caregivers;

20 d. Inadequate and poorly monitored nurse staffing practices
21 jeopardize the delivery of health care services and adversely impact
22 the health of patients;

23 e. The establishment of staffing standards for registered
24 professional nurses in hospitals, ambulatory surgery facilities, and
25 State developmental centers and psychiatric hospitals should not be
26 construed as justifying understaffing with respect to other critical
27 health care workers; safe staffing practices recognize the
28 importance of all health care workers in providing quality patient
29 care because the availability of these other health care workers
30 enables registered professional nurses to focus on the nursing care
31 functions that only these nurses, by law, are permitted to perform;
32 and

33 f. Understaffing at hospitals, ambulatory surgery facilities, and
34 State developmental centers and psychiatric hospitals has been
35 demonstrated to be an underlying cause of the current nursing
36 shortage, since higher patient assignments create higher levels of
37 job dissatisfaction, burnout, and turnover rates among nurses.

38
39 2. a. In addition to staffing requirements provided by law or
40 regulation on the effective date of this act, the Commissioner of
41 Health shall adopt regulations that provide minimum direct care
42 registered professional nurse-to-patient staffing ratios for all patient
43 units in general and special hospitals and ambulatory surgical
44 facilities in accordance with the requirements of this act. The
45 regulations shall not decrease any nurse-to-patient staffing ratios in
46 effect on the effective date of this act.

47 b. The regulations adopted pursuant to this section shall, at a
48 minimum, provide for the following nurse-to-patient ratios:

49 (1) one registered professional nurse for every five patients on a

1 medical/surgical unit;

2 (2) one registered professional nurse for every four patients in a
3 step down, telemetry, or intermediate care unit;

4 (3) one registered professional nurse for every four patients in
5 an emergency department, one registered professional nurse for
6 every two patients in a critical care service of an emergency
7 department, and one registered professional nurse for every patient
8 in a trauma service of an emergency department;

9 (4) one registered professional nurse for every five patients in a
10 behavioral health or psychiatric unit;

11 (5) one registered professional nurse for every two patients in a
12 critical care, intensive care, neonatal, or burn unit;

13 (6) one registered professional nurse for every patient under
14 anesthesia in an operating room, and one registered professional
15 nurse for every two post-anesthesia patients in a recovery room or
16 post-anesthesia care unit;

17 (7) one registered professional nurse for every two patients in a
18 labor and delivery unit; one registered professional nurse for every
19 four patients, including infants, in a postpartum unit in which the
20 mother and infant share the same room; and one registered
21 professional nurse for every six patients in a mothers-only unit; and

22 (8) one registered professional nurse for every four patients in a
23 pediatric or intermediate care nursery unit, and one registered
24 professional nurse for every six patients in a well-baby nursery.

25 c. As used in this section and section 3 of this act, "direct care
26 registered professional nurse" means a registered professional nurse
27 who is assigned to provide care for one or more patients in a
28 specific unit, service, or department and is directly responsible for
29 carrying out procedures, assessments, or other nursing protocols.

30

31 3. The Commissioner of Health shall require all general and
32 special hospitals and ambulatory surgical facilities to employ an
33 acuity and staffing system, approved by the commissioner, for the
34 purpose of increasing direct care registered professional nurse
35 staffing levels above the minimum levels established in section 2 of
36 this act, or otherwise provided by law or regulation, to ensure
37 adequate staffing of each unit, service, or department, as applicable.

38 The acuity and staffing system shall meet the following
39 requirements:

40 a. The system shall be based on: patient classification or
41 acuity; professional nurse staffing standards adopted by nurse
42 specialty organizations; skill mix; and the staffing levels of other
43 health care personnel and the use of agency or temporary staff.

44 b. The system shall be established in the facility by the
45 department of nursing with a majority of the unit staff nurses'
46 approval, or with the approval of the bargaining agent for registered
47 professional nurses at the facility.

48 c. The system shall allow forecasting of staffing levels and
49 provide a method to adjust staff for each patient care unit based on

1 objective criteria, including, but not limited to:

2 (1) Documented skills, training, and competency of staff to plan
3 and provide nursing services in the nursing areas where they
4 function;

5 (2) A patient database incorporating objective factors such as
6 the case mix index, specific or aggregate patient diagnostic
7 classifications or acuity levels, patient profiles, critical pathways or
8 care progression plans, length of stay, and discharge plans;

9 (3) Operational factors, such as unit size, design, and capacity,
10 the admission/discharge/transfer index, and support service
11 availability;

12 (4) Contingency plans to address critical departures from the
13 staffing plan, including policies and procedures to regulate closure
14 of available beds if staffing levels fall below specified levels; and

15 (5) Policies and procedures for the reassignment of staff,
16 including float and agency staff.

17 d. The system shall permit waiver of minimum staffing level
18 requirements in the event of an unforeseen emergent circumstance
19 which causes significant changes in the patient census for a regular
20 shift. Waiver shall not be permitted unless the facility has made
21 reasonable efforts to provide sufficient additional staff to meet the
22 required minimum staffing levels, including seeking volunteers and
23 making use of on-call staff, per-diem staff, agency staff, and float
24 pools. As used in this subsection, "unforeseeable emergent
25 circumstance" means an unpredictable or unavoidable occurrence
26 requiring immediate action.

27 e. A hospital shall maintain a float pool of qualified registered
28 professional nurses to accommodate changes in staffing needs.

29 f. A nurse who is assigned the duty of maintaining unit census
30 for patients and staff or supervisory functions, or who spends a
31 significant amount of time on non-nursing tasks, shall not be
32 factored into the required staffing levels.

33 g. A registered professional nurse shall not be assigned to a
34 unit, service, or department, or considered in the count of nursing
35 staff in a unit, service, or department, unless that nurse has received
36 prior orientation in the applicable clinical area and has
37 demonstrated current competence in providing care in that unit,
38 service, or department.

39

40 4. a. The Department of Health shall monitor and enforce the
41 minimum staffing level requirements established by this act through
42 periodic inspection and in response to any complaint filed pursuant
43 to subsection b. of this section.

44 b. A registered professional nurse or other staff member who
45 believes that the hospital or facility in which the nurse or staff
46 member is employed is in violation of the staffing requirements or
47 the staffing and acuity system required pursuant to this act, or a
48 member of the public who believes that a hospital or facility is in
49 violation of the staffing requirements required under this act, may

1 file a complaint with the Commissioner of Health. The complaint
2 shall be filed in a form and manner determined by the
3 commissioner. The commissioner shall conduct an investigation of
4 the complaint to determine whether or not a hospital or facility is in
5 violation and take such action as may be necessary to ensure
6 compliance with the requirements of this act.

7 c. The Commissioner of Health may waive the minimum
8 staffing level requirements established by this act for any hospital
9 or facility that the commissioner determines is in financial distress.
10 The commissioner may revoke a waiver granted pursuant to this
11 subsection if the commissioner determines that the hospital or
12 facility is no longer in financial distress.

13

14 5. The Commissioner of Health shall, pursuant to the
15 "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et
16 seq.), adopt regulations, within 90 days of the effective date of this
17 act, as necessary to carry out the provisions of this act.

18 The commissioner shall hold a public hearing on the proposed
19 regulations within 30 days of their publication in the New Jersey
20 Register.

21

22 6. The Commissioner of Human Services shall conduct a
23 review of Department of Human Services regulations concerning
24 registered professional nurse staffing standards in developmental
25 centers and State psychiatric hospitals, and shall revise the
26 regulations, as appropriate, to reflect safe staffing practices and
27 assure adequate staffing at the facilities.

28

29 7. This act shall take effect on the first day of the 12th month
30 after enactment, but the Commissioners of Health and Human
31 Services may take such anticipatory administrative action in
32 advance as shall be necessary for the implementation of this act.

33

34

35

STATEMENT

36

37 This bill establishes staffing standards for registered professional
38 nurses in State hospitals, ambulatory surgical facilities,
39 developmental centers, and psychiatric hospitals.

40 Specifically, the bill provides that, in addition to existing staffing
41 requirements provided by law or regulation, the Commissioner of
42 Health is to adopt regulations that provide minimum direct care
43 registered professional nurse-to-patient staffing ratios for all patient
44 units in general and special hospitals and ambulatory surgical
45 facilities, in accordance with the minimum staffing requirements
46 that are established by the bill. As specified in the bill, minimum
47 nurse-to-patient ratios will vary depending on the type of unit, and
48 will range from one registered professional nurse for every five
49 patients in a behavioral health or psychiatric or a medical/surgical

1 unit, to one registered professional nurse for every patient under
2 anesthesia in an operating room. The regulations adopted by the
3 Commissioner of Health are not to decrease any nurse-to-patient
4 staffing ratios that are already in effect on the bill's effective date.

5 The bill provides that the Commissioner of Health is to require
6 all general and special hospitals and ambulatory surgical facilities
7 to employ an acuity and staffing system for the purpose of
8 increasing direct care registered professional nurse staffing levels
9 above the minimum levels established in the bill, or otherwise
10 provided by law or regulation, in order to ensure adequate staffing
11 of each unit, service, or department. The acuity and staffing system
12 will be based on: patient classification or acuity; professional nurse
13 staffing standards adopted by nurse specialty organizations; skill
14 mix; and the staffing levels of other health care personnel and the
15 use of agency or temporary staff. The system is to be established in
16 the facility by the facility's department of nursing, with the
17 approval of a majority of the unit staff nurses or their bargaining
18 agent. The bill requires the acuity and staffing system to allow for
19 the forecasting of staffing levels, and to provide a method to adjust
20 staffing levels for each patient care unit based on objective criteria
21 currently set forth at N.J.A.C.8:43G-17.1(a)3, including, but not
22 limited to:

23 (1) the documented skills, training, and competency of staff to
24 plan and provide nursing services in the nursing areas where they
25 function;

26 (2) a patient database incorporating objective factors such as the
27 case mix index, specific or aggregate patient diagnostic
28 classifications or acuity levels, patient profiles, critical pathways or
29 care progression plans, length of stay, and discharge plans;

30 (3) operational factors, such as unit size, design, and capacity,
31 the admission/discharge/transfer index, and support service
32 availability;

33 (4) contingency plans to address critical departures from the
34 staffing plan, including policies and procedures to regulate the
35 closure of available beds if staffing levels fall below specified
36 levels; and

37 (5) policies and procedures for the reassignment of staff,
38 including float and agency staff.

39 The acuity and staffing system will additionally be required to
40 permit waiver of minimum staffing level requirements in the event
41 of an unforeseen emergent circumstance which causes significant
42 changes in the patient census for a regular shift. Waiver will not be
43 permitted unless the facility has made reasonable efforts to provide
44 sufficient additional staff to meet the required minimum staffing
45 levels, including seeking volunteers and making use of on-call staff,
46 per-diem staff, agency staff, and float pools. The bill defines
47 "unforeseeable emergent circumstance" to mean an unpredictable or
48 unavoidable occurrence requiring immediate action.

49 The Commissioner of Health will also be permitted to waive the

S1280 VITALE, WEINBERG

7

1 minimum staffing level requirements for any hospital or facility that
2 the commissioner determines is in financial distress. A waiver may
3 be revoked upon a determination that the facility is no longer in
4 financial distress.

5 The bill requires the Department of Health to enforce minimum
6 staffing ratios by conducting periodic inspections and responding to
7 complaints. The bill provides a system, pursuant to which a
8 registered professional nurse, other staff member, or member of the
9 public, believing that a facility is in violation of the staffing
10 requirements or the staffing and acuity system, may file a complaint
11 with the Commissioner of Health. In responding to a complaint, the
12 commissioner will be required to conduct an investigation to
13 determine whether or not a hospital or facility is in violation, and to
14 take such other action as may be necessary to ensure compliance
15 with the requirements of the bill.

16 Finally, in addition to the above-described requirements
17 applicable to the Commissioner of Health, the bill requires the
18 Commissioner of Human Services to conduct a review of
19 Department of Human Services regulations concerning registered
20 professional nurse staffing standards in developmental centers and
21 State psychiatric hospitals, and to revise the regulations, as
22 appropriate, to reflect safe staffing practices and assure adequate
23 staffing at the facilities.
