About Your Legislature

THE BRANCHES OF GOVERNMENT

The government of the State of New Jersey, like that of the United States, is divided into three coequal branches: the legislative, the executive and the judicial. The principal function of the Legislature is to enact laws. The Executive branch (the Governor, Lieutenant Governor, and State agencies) carries out the programs established by law. The Judiciary (the Supreme Court and lower courts) punishes violators, settles controversies and disputes, and is the final authority on the meaning and constitutionality of laws.

LEGISLATORS

The Legislature consists of two Houses: a 40-member Senate and an 80-member General Assembly. Senators must be at least 30 years old and residents of the state for at least four years prior to election. Members of the General Assembly must be at least 21 years old and state residents for at least two years. All legislators must live in the districts they represent.

While legislators spend a considerable amount of their time on legislative matters, service in the Legislature is considered to be part-time, and most legislators also hold other employment.

LEGISLATIVE DISTRICTS

Legislators are elected from 40 legislative districts of approximately equal population. The voters in each district elect one Senator and two members of the General Assembly. Every ten years, after the Federal census, the boundaries of the 40 districts are redrawn to maintain an equal population in each district.

LEGISLATIVE ELECTIONS

Legislative elections are held in November of each odd-numbered year. Members of the Assembly serve two-year terms. Senators serve four-year terms, except for the first term of a new decade, which is only two years. This 2-4-4 cycle allows for elections from new districts soon after each reapportionment.

LEGISLATIVE SESSIONS

The New Jersey Constitution provides that each Legislature is constituted for a term of two years, split into two annual sessions. Because the Constitution also specifies that all business from the first year may be continued into the second year, the distinction between the two annual sessions is more ceremonial than actual. The two-year legislative term begins at noon on the second Tuesday in January of each even-numbered year. At the end of the second year, all unfinished business expires.

In recent years, each House has held an average of 40 sessions a year, usually on Mondays and Thursdays. Members typically confer in party conferences prior to the voting sessions. The members also may convene for committee meetings, public hearings or quorums calls—an organizational procedure which allows for certain administrative activity to occur. The Senate and General Assembly occasionally meet in joint session, most often for an address by the Governor. Party conferences are closed to the public, and sometimes attendance at joint sessions is by invitation only. Otherwise, all activity is open to the public with no prior arrangements necessary.

LEGISLATIVE ORGANIZATION

Each House elects a presiding officer from among its members—the President of the Senate and the Speaker of the General Assembly.

The President and the Speaker have broad powers within their Houses. They decide the meeting schedules and the daily calendar of bills to be considered, preside over the sessions in their respective chambers, appoint committee chairs and members, refer bills to committees for consideration and direct the business of their Houses. The Senate elects a Secretary of the Senate and the General Assembly elects a Clerk of the General Assembly to supervise business operations.

Each party in each House also chooses party leaders: the Majority Leader, the Minority Leader, assistant leaders and whips. The party leaders help develop party policy on the issues before the Legislature.

Each House establishes a number of standing reference committees to review legislation. Much of the discussion on the merits of a bill takes place in committee. Representatives of interest groups and members of the public are generally given the opportunity to present their views at committee meetings.

LEGISLATIVE POWERS

The chief function of the Legislature is to enact laws. A proposal to make a new law, or to change or repeal an existing law, is presented to the Legislature as a bill. To become law, a bill must pass both Houses by a majority vote and be approved by the Governor.

The Legislature can also propose amendments to the New Jersey Constitution. Such an amendment must be passed by a vote of 3/5 of each House (24 votes in the Senate and 48 votes in the Assembly). No action by the Governor is required. If passed, the proposed amendment is placed on the ballot in November for a public vote. An amendment may also be presented to the voters if the Legislature passes it two years in a row by a simple majority vote.
