**STATE OF NEW JERSEY
THE ANNUAL APPROPRIATIONS ACT
FISCAL YEAR 2003**

Summary of the Provisions of P.L. 2002, c.38

The New Jersey Constitution provides that no money can be drawn from the State Treasury unless it is appropriated by law. The Constitution further requires that all such appropriations, as far as can be ascertained or reasonably foreseen, be included in one general appropriation law covering an entire fiscal year. As a law, the annual Appropriations Act must first be passed by both Houses of the Legislature as a bill and then signed by the Governor. The Constitution provides that the Governor may object to any item of appropriation in the bill sent for approval, and may strike such item or items from the bill while approving the rest of the bill. The exercise of this power is known as a line-item veto.

Under the Constitution, the Legislature cannot make appropriations which exceed the total amount of revenue on hand and anticipated to be available during the course of the fiscal year, as certified by the Governor. This is the basis for the requirement that the State's budget be in balance when enacted. The State Government operates on a fiscal year that runs from July 1st to the following June 30th.

The fiscal year 2003 Appropriations Act (P.L. 2002, c.38) is divided into the unrestricted General Fund as well as several other funds whose uses are dedicated by constitutional amendment or by law. This summary reports the financial status of those funds as they appear in the Appropriations Act. The summary also contains a statement of anticipated State revenues for fiscal year 2003, as certified by the Governor.
