14 STATEMENT

15
16 This bill amends current law to restrict the practice of midwifery in
17 the State to individuals who are licensed by the State as a registered
18 professional nurse and who are certified as a nurse midwife by a
19 national certifying body.

20 Under current law, an individual may be licensed to practice
21 midwifery upon: earning a certificate or diploma from a school of
22 midwifery in good standing in the opinion of the State Board of
23 Medical Examiners, granted after at least 1,800 hours of instruction;
24 and passing a Statewide examination.

25 Although State law does not limit the practice of midwifery to
26 registered professional nurses, current regulation provides solely for
27 the certification of nurse midwives.
