STATEMENT

13

14 This bill raises the age requirement for compulsory school
15 attendance from 16 to 18 years of age, except for students who
16 graduate from high school prior to their eighteenth birthday. This
17 change would first apply to children who are in the eighth grade at
18 the time of the bill's enactment.

19 The New Jersey Constitution declares that "[t]he Legislature
20 shall provide for the maintenance and support of a thorough and
21 efficient system of free public schools for the instruction of all
22 children in the State between the age of five and 18 years." (Article
23 VIII, Section IV, paragraph 1).

24 The requirement for school attendance until age 16 was
25 established in 1914, with an exception permitting children over 14
26 years of age who were "regularly and lawfully employed in some
27 useful occupation" to leave school. This exception was removed by
28 P.L.1940, c.154 and the 16 year old "drop out" age has not been
29 changed since.

30 The changes in society and the demands of the modern job
31 market require that all children receive an adequate education. A
32 child who stops attending school at age 16 is not prepared to
33 function in our society.
