SYNOPSIS
Exempts certain low-voltage installations from electrical contractor licensing requirements.

CURRENT VERSION OF TEXT
Introduced Pending Technical Review by Legislative Counsel
A1032 WISNIEWSKI, PRIETO

AN ACT concerning an exemption from electrical contractor licensing requirements in connection with built-in vacuum systems and amending P.L.1962, c.162.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section 18 of P.L.1962, c.162 (C.45:5A-18) is amended to read as follows:
   18. Electrical work or construction which is performed on the following facilities or which is by or for the following agencies shall not be included within the business of electrical contracting so as to require the securing of a business permit under this act:
      (a) Minor repair work such as the replacement of lamps and fuses.
      (b) The connection of portable electrical appliances to suitable permanently installed receptacles.
      (c) The testing, servicing or repairing of electrical equipment or apparatus.
      (d) Electrical work in mines, on ships, railway cars, elevators, escalators or automotive equipment.
      (e) Municipal plants or any public utility as defined in R.S.48:2-13, organized for the purpose of constructing, maintaining and operating works for the generation, supplying, transmission and distribution of electricity for electric light, heat, or power.
      (f) A public utility subject to regulation, supervision or control by a federal regulatory body, or a public utility operating under the authority granted by the State of New Jersey, and engaged in the furnishing of communication or signal service, or both, to a public utility, or to the public, as an integral part of a communication or signal system, and any agency associated or affiliated with any public utility and engaged in research and development in the communications field.
      (g) A railway utility in the exercise of its functions as a utility and located in or on buildings or premises used exclusively by such an agency.
      (h) Commercial radio and television transmission equipment.
      (i) Construction by any branch of the federal government.
      (j) Any work with a potential of less than 10 volts.
      (k) Repair, manufacturing and maintenance work on premises occupied by a firm or corporation, and installation work on premises occupied by a firm or corporation and performed by a regular employee who is a qualified journeyman electrician.
      (l) Installation, repair or maintenance performed by regular employees of the State or of a municipality, county, or school

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.
district on the premises or property owned or occupied by the State, a municipality, county, or school district.

(m) The maintaining, installing or connecting of automatic oil, gas or coal burning equipment, gasoline or diesel oil dispensing equipment and the lighting in connection therewith to a supply of adequate size at the load side of the distribution board.

(n) Work performed by a person on a dwelling that is occupied solely as a residence for himself or for a member or members of his immediate family.

(o) (Deleted by amendment, P.L.1997, c.305).

(p) Any work performed by a landscape irrigation contractor which has the potential of not more than 30 volts involving the installation, servicing, or maintenance of a landscape irrigation system as this term is defined by section 2 of [this amendatory and supplementary act] P.L.1985, c.289 (C.45:5A-18.1). Nothing in this act shall be deemed to exempt work covered by this subsection from inspection required by the "State Uniform Construction Code Act," P.L.1975, c.217 (C.52:27D-119 et seq.) or regulations adopted pursuant thereto.

(q) Any work performed by a person certified pursuant to sections 1 through 10 of P.L.2001, c.289 (C.52:27D-25n through C.52:27D-25w) that is not branch circuit wiring. For the purposes of this subsection, "branch circuit wiring" means the circuit conductors between the final overcurrent device protecting the circuit and one or more outlets. A certificate holder shall be deemed to have engaged in professional misconduct for the purposes of section 8 of P.L.1978, c.73 (C.45:1-21) for violating the provisions of this subsection.

(r) Any work performed by an alarm business, as that term is defined by section 2 of P.L.1985, c.289 (C.45:5A-18.1), licensed pursuant to P.L.1997, c.305 (C.45:5A-23 et seq.) that is not branch circuit wiring. For the purposes of this subsection, "branch circuit wiring" means the circuit conductors between the final overcurrent device protecting the circuit and one or more outlets. A licensee shall be deemed to have engaged in professional misconduct for the purposes of section 8 of P.L.1978, c.73 (C.45:1-21) for violating the provisions of this subsection.

(s) The maintaining, installing, repairing or connecting of a built-in vacuum system which has the potential of not more than 24 volts.

The board may also exempt from the business permit provisions of this act such other electrical activities of like character which in the board's opinion warrant exclusion from the provisions of this act.

(cf: P.L.2001, c.289, s.20)

2. This act shall take effect immediately.
STATEMENT

This bill amends “The Electrical Contractors Licensing Act of 1962,” P.L. 1962, c.162 (C.45:5A-1 et seq.), to allow any person to maintain, install, repair or connect a built-in vacuum system which has the potential of not more than 24 volts. Under current law, with certain exceptions, only electrical work with a potential of less than 10 volts is exempt from the requirement that the work be done by licensed electrical contractors.
