STATEMENT

This bill codifies Lyme disease reporting required by regulation, pursuant to N.J.A.C.8:57-1.1 et seq., into statute.

Specifically, the bill provides that licensed health care professionals must report confirmed cases of Lyme disease to the health officer of the jurisdiction where the individual lives, or if unknown, where the diagnosis is made, within 24 hours of diagnosis. If the health officer is unavailable, the report must be made to the Department of Health and Senior Services.

Pursuant to the bill, responsible parties who fail to comply with these reporting requirements may receive written notification and a warning. Further failure to comply shall result in a fine of between $10 and $100, pursuant to the provisions of R.S.26:4-129.
