STATEMENT

18

19 The “Transparency in Government Act” provides for the creation
20 of a single, searchable Internet website that retains and displays
21 data and information on the State’s annual revenues, expenditures,
22 and total bonded indebtedness. With the assistance of the Chief
23 Technology Officer in the Office of Information Technology, this
24 bill directs the State Treasurer to design and develop a State public
25 finance website on or before July 1, 2008, and requires the
26 Treasurer to maintain and operate the site, without charge, each
27 fiscal year thereafter.

28 While this bill prohibits the posting of any data that may be
29 deemed private, personal, or confidential by State or federal law, it
30 enables information such as contractual service purchases, salaries
31 and wages, gifts and grants, and the amount of total bonded
32 obligations to be accessible to the public no later than 45 days
33 following the close of each fiscal year. Under its provisions, the
34 bill stipulates that any data or information posted on the website
35 may be periodically updated, but it indicates that any data or
36 information posted on the website must not be subject to removal.

37 In order to facilitate the organization, development, and
38 maintenance of the website, this bill also provides for the
39 establishment of the Public Finance Transparency Committee as an
40 entity within the Department of the Treasury. In addition to the
41 State Treasurer, the 13-member committee is comprised of: (1) the
42 Chief Technology Officer; (2) the Director of the Division of
43 Budget and Accounting in the Department of the Treasury; (3) two
44 cabinet-level officers appointed by the Governor; (4) four public
45 members; and (5) four members of the Legislature. With the ability
46 to hold meetings, convene hearings, and publish reports, the
47 committee has the express authority to advise, consult, and

1 coordinate with the Treasurer and Chief Technology Officer to
2 improve and expand upon the scope, content, and format of the
3 public finance website developed in accordance with this act.
4 Building upon the legislative proposals in more than a dozen
5 states, this bill establishes an accessible, user-friendly source of
6 information to track State revenues and expenditures and to gauge
7 the State's past and present levels of bonded indebtedness. More so,
8 this legislation helps facilitate a bi-partisan approach to improving
9 transparency, identifying waste, and eliminating abuse at each level
10 of State government. Beginning with the first year of the new
11 millennium and continuing into the future, State residents will have
12 the ability to follow the allocation and spending of public tax
13 dollars, regardless of the party or political affiliations associated
14 with the authorization of such spending.
