AN ACT concerning the property tax status of certain nonprofit hospitals, supplementing chapter 48 of Title 40 and chapter 4 of Title 54 of the Revised Statutes, and amending R.S.54:4-3.6.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. (New section)  a. The owner of property used as an acute care hospital, which property is exempt from taxation pursuant to R.S.54:4-3.6 and section 2 of P.L.     , c. (C.        ) (pending before the Legislature as this bill), shall, except as otherwise provided under this section, annually be assessed a community service contribution to the municipality in which the licensed beds of the exempt acute care hospital are located and, in the case of a satellite emergency care facility, to the municipality in which such facility is located, which contributions shall be remitted to the municipalities to which the community service contributions are assessed.

   b. The annual community service contribution required pursuant to subsection a. of this section shall be equal to $2.50 a day for each licensed bed at the exempt acute care hospital property in the prior tax year, except that in the case of a satellite emergency care facility the contribution shall be equal to $750 a day in the prior tax year for each such facility; provided, however, that the amount shall be reduced by the amount of any payments remitted to the municipality in which the licensed beds of the exempt acute care hospital or satellite emergency care facility, as the case may be, are located pursuant to a voluntary agreement operative in the prior tax year between the owner and the municipality to compensate for public safety services provided that benefit the occupants and premises of the exempt acute care hospital property.

2 For tax year 2017 and each tax year thereafter, the per day amount used to calculate an annual community service contribution for an acute care hospital and a satellite emergency care facility shall increase by two percent over the prior tax year. The Commissioner of Health shall promulgate annually the per day amount to apply for each tax year.

   c. The obligation to remit a community service contribution pursuant to subsection a. of this subsection is legal, valid, and binding. If an annual community service contribution installment is not paid as and when due pursuant to subsection b. of this section, interest shall accrue and be due to the municipality on the unpaid balance at the rate

of one and one-half percent per month until the unpaid balance and all
interest accrued thereon is fully paid to the municipality; and if the
municipality may, in a civil action, recover the unpaid balance and
all interest accrued thereon, together with attorney’s fees and costs, in
a court of competent jurisdiction unpaid balance shall constitute a
municipal lien on the acute care hospital property after 30 days, and
shall be enforced and collected in the same manner as unpaid property taxes.

d. A municipality that receives a community service contribution
pursuant to subsection a. of this section, or a payment under a
voluntary agreement that reduces the amount of such contribution
pursuant to subsection b. of this section, shall forthwith upon receipt
remit five percent of the contribution or voluntary payment, as the case
may be, to the county in which the municipality is located.

e. The proceeds from a community service contribution, and any
interest accrued on any unpaid balance thereof, collected pursuant to
this section, shall be used solely to fund police or fire protection; first
aid, emergency, rescue, or ambulance services; any other public safety
purpose; or to reduce the property tax levy.

f. An owner required to remit a community service contribution
pursuant to subsection a. of this section may, by February 1, apply to
the New Jersey Health Care Facilities Financing Authority in the
Department of Health for the issuance of a certificate exempting the
owner from that requirement for the current tax year for exempt
property used as an acute care hospital, including a satellite
emergency care facility, in a municipality, if that acute care hospital
had a negative operating margin in the prior tax year or the owner is
not in full compliance with the financial terms of any bond covenants
related to that acute care hospital or satellite emergency care facility,
as the case may be, is in financial distress or at risk of being in
financial distress. At the same time such an application is made, the
applicant owner shall provide notice to the chief financial officer of
the municipality in which the acute care hospital or satellite emergency
care facility that is the subject of the application is located.

An application pursuant to this paragraph subsection shall
include the audited financial results for the acute care hospital or satellite emergency care facility from the prior tax year or other relevant financial records showing that the owner is not in full compliance with its bond covenants related to that acute care hospital and proof that notice of the application was provided to the chief financial officer of the municipality in which the acute care hospital or satellite emergency care facility that is the subject of the application is located. If audited financial results from the prior tax year are not available by February 1, a certification of the chief financial officer of the acute care hospital or satellite emergency care facility shall be submitted by that date, and audited financial results shall be submitted within 15 days of such results being completed.
The authority shall issue a determination on an application submitted pursuant to this subsection by April 1, or within 60 days of receipt of the audited financial results if such results are submitted after February 1. In making such determination, the authority may consider factors including, but not limited to, whether the acute care hospital or satellite emergency care facility had a negative operating margin in the prior tax year based on the audited financial results from that tax year, whether the owner is not in full compliance with the financial terms of any bond covenants related to the acute care hospital or satellite emergency care facility, the overall financial health of the hospital system if the acute care hospital or satellite emergency care facility is part of a hospital system responsible for the debts and liabilities of the acute care hospital or satellite emergency care facility, or whether the acute care hospital or satellite emergency care facility is a safety net hospital or facility.

If the authority determines that an acute care hospital or satellite emergency care facility that is the subject of an application submitted pursuant to this subsection had a negative operating margin in the prior tax year based on the audited financial results for that acute care hospital from that tax year or that the owner is not in full compliance with the financial terms of any bond covenants related to that acute care hospital is in financial distress or at risk of being in financial distress, the authority shall grant the application and issue a certificate exempting the owner from the community service contribution otherwise required for the acute care hospital or satellite emergency care facility to the municipal tax collector of the municipality otherwise owed the contribution. A certificate issued pursuant to this paragraph shall be valid for the current tax year.

If the authority denies an application, any community service contribution owing shall bear interest from the original payment date pursuant to subsection c. of this section.

g. The Commissioner of Health, in consultation with the New Jersey Health Care Facilities Financing Authority in the Department of Health and the Director of the Division of Local Government Services in the Department of Community Affairs, shall by January 1, 2017, adopt regulations necessary to effectuate the provisions of this section pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), which shall include specific guidelines for what constitutes being in financial distress or at risk of being in financial distress for purposes of qualifying for an exemption certificate pursuant to subsection f. of this section.
