CURRENT VERSION OF TEXT
As amended by the Senate on May 30, 2019.

(Sponsorship Updated As Of: 5/31/2019)
AN ACT concerning medical cannabis, revising various parts of the statutory law, and supplementing P.L. 2009, c. 307.

BE IT ENacted by the Senate and General Assembly of the State of New Jersey:

1. Section 1 of P.L. 2009, c. 307 (C. 24:6I-1) is amended to read as follows:
   1. This act shall be known and may be cited as the "New Jersey Jake Honig Compassionate Use Medical [Marijuana] Cannabis Act." (cf: P.L. 2009, c. 307, s. 1)

2. Section 2 of P.L. 2009, c. 307 (C. 24:6I-2) is amended to read as follows:
   a. Modern medical research has discovered a beneficial use for [marijuana] cannabis in treating or alleviating the pain or other symptoms associated with certain [debilitating] medical conditions, as found by the National Academy of Sciences' Institute of Medicine in March 1999.
   b. According to the U.S. Sentencing Commission and the Federal Bureau of Investigation, 99 out of every 100 [marijuana] cannabis arrests in the country are made under state law, rather than under federal law. Consequently, changing state law will have the practical effect of protecting from arrest the vast majority of seriously ill people who have a medical need to use [marijuana] cannabis.
   d. States are not required to enforce federal law or prosecute people for engaging in activities prohibited by federal law;

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.
Matter enclosed in superscript numerals has been adopted as follows:

1Assembly AAP committee amendments adopted May 20, 2019.
2Senate floor amendments adopted May 30, 2019.
therefore, compliance with this act does not put the State of New Jersey in violation of federal law.  

e. Compassion dictates that a distinction be made between medical and non-medical uses of cannabis. Hence, the purpose of this act is to protect from arrest, prosecution, property forfeiture, and criminal and other penalties, those patients who use cannabis to alleviate suffering from qualifying medical conditions, as well as their physicians, health care practitioners, [primary] designated caregivers, institutional caregivers, and those who are authorized to produce cannabis for medical purposes.

Each applicant shall certify as to the status of the individuals and entities included in the application.

g. \textit{[The commission shall develop policies and procedures to promote and encourage full participation in the medical cannabis industry by individuals from communities that have historically experienced disproportionate harm under the State’s cannabis prohibition and enforcement laws, and to have a positive effect on those communities.]} The commission shall conduct a disparity study to determine whether race-based measures should be considered when issuing permits pursuant to this section, and shall incorporate the policies, practices, protocols, standards, and criteria developed by the Office of Minority, Disabled Veterans, and Women Medical Cannabis Business Development pursuant to section 32 of P.L. \textit{[pending before the Legislature as this bill]} to promote participation in the medical cannabis industry by persons from socially and economically disadvantaged communities, including promoting applications for, and the issuance of, medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, and medical cannabis dispensary permits to certified minority, women’s, and disabled veterans’ businesses. To this end, the commission shall require that at least 30 percent of the total number of new medical cannabis cultivator permits, medical cannabis manufacturer permits, \textit{[medical cannabis wholesaler permits]} and medical cannabis dispensary permits issued on or after the effective date of P.L. \textit{[pending before the Legislature as this bill] are issued as follows:}
(1) at least 15 percent of the total number of new medical cannabis cultivator permits, medical cannabis manufacturer permits, medical cannabis wholesaler permits, and medical cannabis dispensary permits issued on or after the effective date of P.L. , c. (C. ) (pending before the Legislature as this bill) shall be issued to a qualified applicant that has been certified as a minority business pursuant to P.L.1986, c.195 (C.52:27H-21.18 et seq.); and

(2) at least 15 percent of the total number of new medical cannabis cultivator permits, medical cannabis manufacturer permits, medical cannabis wholesaler permits, and medical cannabis dispensary permits issued on or after the effective date of P.L. , c. (C. ) (pending before the Legislature as this bill) shall be issued to a qualified applicant that has been certified as a women’s business pursuant to P.L.1986, c.195 (C.52:27H-21.18 et seq.) or that is a disabled-veterans’ business, as defined in section 2 of P.L.2015, c.116 (C.52:32-31.2).

An integrated curriculum permit shall be subject to revocation if the IC permit holder fails to maintain or continue the integrated curriculum. In the event that, because of circumstances outside an IC permit holder’s control, the IC permit holder will no longer be able to continue an integrated curriculum, the IC permit holder shall notify the commission and shall make reasonable efforts to establish a new integrated curriculum with an institution of higher education, subject to approval by the commission and the Department of Education Office of the Secretary of Higher Education. If the IC permit holder is unable to establish a new integrated curriculum within six months after the date the current integrated curriculum arrangement ends, the commission shall revoke the entity’s IC permit, unless the commission finds there are extraordinary circumstances that justify allowing the permit holder to retain the permit without an integrated curriculum and the commission finds that allowing the permit holder to retain the permit would be consistent with the purposes of P.L.2009, c.307 (C.24:6I-1 et al.), in
which case the IC permit shall convert to a regular permit of the
same type. The commission may revise the application and permit
fees or other conditions for an IC permit as may be necessary to
courage applications for IC permits.

i. Application materials submitted to the commission pursuant
to this section shall not be considered a public record pursuant to
P.L.1963, c.73 (C.47:1A-1 et seq.) or P.L.2001, c.404 (C.47:1A-5 et al.).

j. If the commission notifies an applicant that it has performed
sufficiently well on multiple applications to be awarded more than
one medical cannabis cultivator permit, more than one medical
cannabis manufacturer permit, more than one medical cannabis
wholesaler permit, or more than one medical cannabis dispensary
permit by the commission, the applicant shall notify the
commission, within seven business days after receiving such notice,
as to which permit it will accept. For any permit award declined by
an applicant pursuant to this subsection, the commission shall, upon
receiving notice from the applicant of the declination, award the
permit to the applicant for that permit type who, in the
determination of the commission, best satisfies the commission’s
criteria while meeting the commission’s determination of Statewide
need. If an applicant fails to notify the commission as to which
permit it will accept, the commission shall have the discretion to
determine which permit it will award to the applicant, based on the
commission’s determination of Statewide need and other
applications submitted for facilities to be located in the affected
regions.

13. (New section) a. The commission shall issue clinical
registrant permits to qualified applicants that meet the requirements
of this section. In addition to any other requirements as the
commission establishes by regulation regarding application for and
issuance of a clinical registrant permit, each clinical registrant

Thereafter, the commission shall accept applications for and issue such additional clinical registrant permits as it determines to be necessary and consistent with the provisions of P.L.2009, c.307 (C.24:6I-1 et al.) 

The commission shall make a determination as to a clinical registrant permit application no later than 90 days after receiving the application, which may include a determination that the commission reasonably requires more time to adequately review the application. In reviewing and approving applications for clinical registrant permits, the commission shall seek to incorporate the policies, practices, protocols, standards, and criteria developed by the Office of Minority, Disabled Veterans, and Women Medical Cannabis Business Development pursuant to section 32 of P.L. , c. (C. ) (pending before the Legislature as this bill) to promote participation in the medical cannabis industry by persons from socially and economically disadvantaged communities. In no case shall the commission accept, process, or approve an application submitted by an applicant that has contracted with an academic medical center that is part of a health care system that includes another academic medical center that has contracted with an applicant for, or a holder of, a clinical registrant permit.

A contract between a clinical registrant and an academic medical center shall include a commitment by the academic medical center, or its affiliate, to engage in clinical research related to the use of medical cannabis in order to advise the clinical registrant concerning patient health and safety, medical applications, and dispensing and management of controlled substances, among other areas. (pending before the Legislature as this bill) 

including dispensing medical cannabis and medical cannabis products to qualifying patients and designated and
institutional caregivers. The commission may convene a task force comprised of individuals with expertise in matters pertaining to the medical cannabis industry to make recommendations to the commission concerning the content of rules and regulations adopted by the commission to implement the provisions of P.L.2009, c.307 (pending before the Legislature as this bill).¹

24. (New section) a. Each batch of medical cannabis cultivated by a medical cannabis cultivator or a clinical registrant and each batch of a medical cannabis product produced by a medical cannabis manufacturer or a clinical registrant shall be tested in accordance with the requirements of section 26 of P.L. , c. (pending before the Legislature as this bill) by a laboratory licensed pursuant to section 25 of P.L. , c. (pending before the Legislature as this bill). The laboratory performing the testing shall produce a written report detailing the results of the testing, a summary of which shall be included in any packaging materials for medical cannabis and medical cannabis products dispensed to qualifying patients and their designated and institutional caregivers. The laboratory may charge a reasonable fee for any test performed pursuant to this section.

b. The requirements of subsection a. of this section shall take effect at such time as the executive director commission certifies that a sufficient number of laboratories have been licensed pursuant to section 25 of P.L. , c. (pending before the Legislature as this bill) to ensure that all medical cannabis and medical cannabis products can be promptly tested and labeled without disrupting patient access to medical cannabis.
25. (New section) a. A laboratory that performs testing services pursuant to section 24 of P.L. 2009, c. 307 (pending before the Legislature as this bill) shall be licensed by the commission and may be subject to inspection by the commission to determine the condition and calibration of any equipment used for testing purposes and to ensure that testing is being performed in accordance with the requirements of section 26 of P.L. 2009, c. 307 (pending before the Legislature as this bill). Each applicant for licensure pursuant to this section shall submit an attestation signed by a bona fide labor organization stating that the applicant has entered into a labor peace agreement with such bona fide labor organization. The maintenance of a labor peace agreement with a bona fide labor organization shall be an ongoing material condition of maintaining a license to test medical cannabis.

b. There shall be no upper limit on the number of laboratories that may be licensed to perform testing services.

c. A person who has been convicted of a crime involving any controlled dangerous substance or controlled substance analog as set forth in chapter 35 of Title 2C of the New Jersey Statutes except paragraph (4) of subsection a. of N.J.S.2C:35-10, or any similar law of the United States or any other state shall not be issued a license to operate as or be a director, officer, or employee of a medical cannabis testing laboratory, unless such conviction occurred after the effective date of P.L.2009, c.307 (C.24:6l-1 et al.) and was for a violation of federal law relating to possession or sale of cannabis for conduct that is authorized under P.L.2009, c.307 (C.24:6l-1 et al.) or P.L.2015, c.158 (C.18A:40-12.22 et al.) or P.L. 2015, c. 158 (pending before the Legislature as this bill).

d. (1) The commission shall require each applicant for licensure as a medical cannabis testing laboratory to undergo a criminal history record background check, except that no criminal history record background check shall be required for an applicant who completed a criminal history record background check as a condition of professional licensure or certification.

For purposes of this section, the term "applicant" shall include any owner, director, officer, or employee of a medical cannabis testing laboratory. The commission is authorized to exchange fingerprint data with and receive criminal history record background information from the Division of State Police and the Federal Bureau of Investigation consistent with the provisions of applicable federal and State laws, rules, and regulations. The Division of State Police shall forward criminal history record background information to the commission in a timely manner when requested pursuant to the provisions of this section.
An applicant who is required to undergo a criminal history record background check pursuant to this section shall submit to being fingerprinted in accordance with applicable State and federal laws, rules, and regulations. No check of criminal history record background information shall be performed pursuant to this section unless the applicant has furnished the applicant’s written consent to that check. An applicant who is required to undergo a criminal history record background check pursuant to this section who refuses to consent to, or cooperate in, the securing of a check of criminal history record background information shall not be considered for a license to operate, or authorization to be employed at, a medical cannabis testing laboratory. An applicant shall bear the cost for the criminal history record background check, including all costs of administering and processing the check.

(2) The [executive director] commission shall not approve an applicant for a license to operate, or authorization to be employed at, a medical cannabis testing laboratory if the criminal history record background information of the applicant reveals a disqualifying conviction as set forth in subsection c. of this section.

(3) Upon receipt of the criminal history record background information from the Division of State Police and the Federal Bureau of Investigation, the [executive director] commission shall provide written notification to the applicant of the applicant’s qualification for or disqualification for a permit to operate or be a director, officer, or employee of a medical cannabis testing laboratory.

If the applicant is disqualified because of a disqualifying conviction pursuant to the provisions of this section, the conviction that constitutes the basis for the disqualification shall be identified in the written notice.

(4) The Division of State Police shall promptly notify the [executive director] commission in the event that an individual who was the subject of a criminal history record background check conducted pursuant to this section is convicted of a crime or offense in this State after the date the background check was performed. Upon receipt of that notification, the [executive director] commission shall make a determination regarding the continued eligibility to operate or be a director, officer, or employee of a medical cannabis testing laboratory.

(5) Notwithstanding the provisions of subsection c. of this section to the contrary, the [executive director] commission may offer provisional authority for an applicant to be an owner, director, officer, or employee of a medical cannabis testing laboratory for a period not to exceed three months if the applicant submits to the [executive director] commission a sworn statement attesting that the person has
not been convicted of any disqualifying conviction pursuant to this section.

(6) Notwithstanding the provisions of subsection c. of this section to the contrary, no applicant to be an owner, director, officer, or employee of a medical cannabis testing laboratory shall be disqualified on the basis of any conviction disclosed by a criminal history record background check conducted pursuant to this section if the individual has affirmatively demonstrated to the [executive director] commission clear and convincing evidence of rehabilitation. In determining whether clear and convincing evidence of rehabilitation has been demonstrated, the following factors shall be considered:

(a) the nature and responsibility of the position which the convicted individual would hold, has held, or currently holds;
(b) the nature and seriousness of the crime or offense;
(c) the circumstances under which the crime or offense occurred;
(d) the date of the crime or offense;
(e) the age of the individual when the crime or offense was committed;
(f) whether the crime or offense was an isolated or repeated incident;
(g) any social conditions which may have contributed to the commission of the crime or offense; and
(h) any evidence of rehabilitation, including good conduct in prison or in the community, counseling or psychiatric treatment received, acquisition of additional academic or vocational schooling, successful participation in correctional work-release programs, or the recommendation of those who have had the individual under their supervision.

26. (New section) a. The commission shall establish, by regulation, standardized requirements and procedures for testing medical cannabis and medical cannabis products.

b. Any test performed on medical cannabis or on a medical cannabis product shall include liquid chromatography analysis to determine chemical composition and potency, and, at a minimum, screening for each of the following:

(1) microbial contamination;
(2) foreign material;
(3) residual pesticides;
(4) other agricultural residue and residual solvents; and
(5) heavy metals.

c. Laboratories shall use the dosage equivalence guidelines developed by the commission pursuant to paragraph (2) of subsection c. of section 18 of P.L.2009, c.307 (C.24:6I-16) when testing and determining the potency of medical cannabis products.
d. As a condition of licensure, each laboratory shall certify its intention to seek third party accreditation in accordance with ISO 17025 standards in order to ensure equipment is routinely inspected, calibrated, and maintained until such time as the commission issues its own standards or confirms the use of ISO 17025.

e. Until such time as the commission establishes the standards required by this section, a licensed laboratory shall utilize the testing standards established by another state with a medical cannabis program, which state shall be designated by the commission.

27. (New section) a. An individual who performs work for or on behalf of a medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, or medical cannabis dispensary, issued a permit pursuant to section 7 of P.L.2009, c.307 (C.24:6I-7), a clinical registrant issued a permit pursuant to section 13 of P.L. , c. (C. ) (pending before the Legislature as this bill), or a testing laboratory licensed pursuant to section 25 of P.L. , c. (C. ) (pending before the Legislature as this bill) shall hold a valid medical cannabis handler certification issued by the commission pursuant to this section if the individual participates in any activity involving obtaining, possessing, cultivating, processing, manufacturing, creating, testing, transporting, transferring, relocating, reselling, warehousing, dispensing, or delivering medical cannabis.

b. An entity issued a permit pursuant to section 7 of P.L.2009, c.307 (C.24:6I-7) or section 13 of P.L. , c. (C. ) (pending before the Legislature as this bill) or a license pursuant to section 25 of P.L. , c. (C. ) (pending before the Legislature as this bill) shall verify that, before allowing any individual to perform any work described in subsection a. of this section at the premises for which the permit has been issued, the individual holds a valid medical cannabis handler certification issued pursuant to this section.

c. The commission shall issue medical cannabis handler certifications to qualified applicants to perform work described in subsection a. of this section. The commission shall adopt rules and regulations establishing: the qualifications for performing work described in subsection a. of this section; the terms of a medical cannabis handler certification issued pursuant to this section; procedures for applying for and renewing a medical cannabis handler certification issued pursuant to this section; and reasonable application, issuance, and renewal fees for a medical cannabis handler certification issued pursuant to this section.
d. The commission may require an individual applying for a medical cannabis handler certification under this section to successfully complete a course, to be made available by or through the commission, in which the individual receives training on: verifying the registration status of patients, designated caregivers, and institutional caregivers; handling medical cannabis; statutory and regulatory provisions relating to medical cannabis; and any matter deemed necessary by the commission to protect the public health and safety. The commission or other provider may charge a reasonable fee for the course.

The commission shall not require an individual to successfully complete the course required pursuant to this subsection more than once, except that the commission may adopt regulations directing continuing education training on a prescribed schedule. The course may comprise part of the eight hours of training required for employees of medical cannabis cultivators, medical cannabis manufacturers, medical cannabis wholesalers, medical cannabis dispensaries, and clinical registrants pursuant to paragraph (1) of subsection j. of section 7 of P.L.2009, c.307 (C.24:6I-7).

As part of a final order suspending a medical cannabis handler certification issued pursuant to this section, the commission may require the holder of a medical cannabis handler certification to successfully complete the course described in this subsection as a condition of lifting the suspension; and as part of a final order revoking a medical cannabis handler certification issued pursuant to this section, the commission shall require an individual to successfully complete the course described in this subsection prior to applying for a new medical cannabis handler certification.

e. The commission shall deny an application to any applicant who fails to provide information, documentation, and assurances as required by P.L.2009, c.307 (C.24:6I-1 et al.) or as requested by the commission, or who fails to reveal any fact material to qualification, or who supplies information which is untrue or misleading as to a material fact pertaining to the qualification criteria for medical cannabis handler certification.

f. The commission may suspend, revoke, or refuse to renew a medical cannabis handler certification if the individual who is applying for or who holds the certification: violates any provision of P.L.2009, c.307 (C.24:6I-1 et al.) or any rule or regulation adopted by the commission; makes a false statement to the commission; or refuses to cooperate in any investigation by the commission.

g. A medical cannabis handler certification issued pursuant to this section is a personal privilege and permits work described in subsection a. of this section only for the individual who holds the certification.
h. The commission shall enact rules and regulations governing
the transfer of medical cannabis and medical cannabis products
between medical cannabis cultivators, medical cannabis
manufacturers, medical cannabis wholesalers, medical cannabis
dispensaries, clinical registrants, and testing laboratories, which
regulations shall require, at a minimum:

(1) Transfer of medical cannabis and medical cannabis products
shall be made directly to the medical cannabis cultivator, medical
cannabis manufacturer, medical cannabis wholesaler, medical
cannabis dispensary, clinical registrant, or testing laboratory
receiving the medical cannabis or medical cannabis product.

who is certified by the department to perform transfers and is at
least 18 years of age. Transfers of medical cannabis may be
performed by a medical cannabis handler who is an employee of the
medical cannabis cultivator, medical cannabis manufacturer,
medical cannabis wholesaler, medical cannabis dispensary, or
clinical registrant providing or receiving the transfer or by an
independent third party who has entered into a contract with a
medical cannabis cultivator, medical cannabis manufacturer,
medical cannabis wholesaler, medical cannabis dispensary, or
clinical registrant to perform transfers of medical cannabis, which
contract may provide for a one-time transfer of medical cannabis or
for ongoing transfers of medical cannabis. A medical cannabis
handler holding a transfer certification issued by the commission
may simultaneously hold a delivery certification issued by the
commission, subject to the requirements of paragraph (2) of
subsection i. of this section.

(3) Medical cannabis shall not be transferred to an address
located on land owned by the federal government or any address on
land or in a building leased by the federal government.

(4) All transfers of medical cannabis shall be made in person. A
transfer of medical cannabis shall not be made through the use of an
unmanned vehicle.

(5) Each certified medical cannabis handler shall carry a copy of
the individual’s medical cannabis handler certification card and
transfer certification card when performing a transfer. The medical
cannabis handler shall present the certification cards upon request
to State and local law enforcement and to State and local regulatory
authorities and agencies.

(6) Each certified medical cannabis handler engaged in a
transfer of medical cannabis shall have access to a secure form of
communication with the medical cannabis cultivator, medical
cannabis manufacturer, medical cannabis wholesaler, medical
cannabis dispensary, or clinical registrant that furnished the medical
cannabis to the handler for transfer, such as a cellular telephone, at
all times that the handler is in possession of medical cannabis for
transfer.

(7) During transfer, the certified medical cannabis handler shall
maintain a physical or electronic copy of the transfer order, and
shall make it available upon request to State and local law
enforcement and to State and local regulatory authorities and
agencies.

(8) Vehicles used for the transfer of medical cannabis shall be
equipped with a secure lockbox in a secured cargo area, which shall
be used for the sanitary and secure transport of medical cannabis.

(9) A certified medical cannabis handler shall not leave medical
cannabis in an unattended vehicle unless the vehicle is locked and
equipped with an active vehicle alarm system.

(10) A transfer vehicle shall contain a Global Positioning
System (GPS) device for identifying the geographic location of the
vehicle. The device shall be either permanently or temporarily
affixed to the vehicle while the vehicle is in operation, and the
device shall remain active and in the possession of the certified
medical cannabis handler at all times while the vehicle is being
used for the transfer of medical cannabis. At all times, the medical
cannabis cultivator, medical cannabis manufacturer, medical
cannabis wholesaler, medical cannabis dispensary, or clinical
registrant that furnished the medical cannabis to the handler for
transfer shall be able to identify the geographic location of all
vehicles that are making transfers for that entity and shall provide
that information to the commission upon request.

(11) Each entity that employs a medical cannabis handler
certified to perform transfers of medical cannabis shall provide the
commission with current information concerning all vehicles
utilized for medical cannabis transfers, including each vehicle’s
make, model, color, Vehicle Identification Number, license plate
number, and vehicle registration.

(12) Each medical cannabis cultivator, medical cannabis
manufacturer, medical cannabis wholesaler, medical cannabis
dispensary, and clinical registrant that engages in, or contracts with
an independent third party to perform, transfers of medical cannabis
shall maintain current hired and non-owned automobile liability
insurance sufficient to insure all transfer vehicles in the amount of
not less than $1,000,000 per occurrence or accident.

(13) Transfer vehicles shall bear no markings that would either
identify or indicate that the vehicle is used to transport medical
cannabis.

(14) All transfers of medical cannabis shall be completed in a
timely and efficient manner.

(15) While performing transfers of medical cannabis, a certified
medical cannabis handler shall only travel from the premises of the
medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, medical cannabis dispensary, or clinical registrant furnishing the medical cannabis to the transfer address; from one transfer address to another transfer address; from a testing laboratory back to the medical cannabis cultivator, medical cannabis manufacturer, or clinical registrant that furnished the medical cannabis for testing purposes, or from a transfer address back to the premises of the medical cannabis handler’s employer. A medical cannabis handler shall not deviate from the route described in this paragraph, except in the event of emergency or as necessary for rest, fuel, or vehicle repair stops, or because road conditions make continued use of the route or operation of the vehicle unsafe, impossible, or impracticable.

(16) The process of transfer shall begin when the certified medical cannabis handler leaves the premises of the medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, medical cannabis dispensary, clinical registrant, or testing laboratory with medical cannabis for transfer. The process of transferring medical cannabis ends when the medical cannabis handler returns to the premises of the medical cannabis handler’s employer after completing the transfer.

(17) Each medical cannabis handler performing transfers of medical cannabis shall maintain a record of each transfer in a log, which may be written or electronic. For each transfer, the log shall record:

(a) The date and time that the transfer began and ended;
(b) The handler’s name, medical cannabis handler certification number, and medical cannabis transfer certification number;
(c) The tracking number of the medical cannabis; and
(d) The signature and employee identification number of the employee accepting the transfer.

(18) A medical cannabis handler shall report any vehicle accidents, diversions, losses, or other reportable events that occur during transfer of medical cannabis to the appropriate State and local authorities, including the commission. A medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, medical cannabis dispensary, or clinical registrant furnishing medical cannabis for transfer or accepting the transfer of medical cannabis shall have no criminal liability for any vehicle accidents, diversions, losses, or other reportable events that occur during the transfer.

The commission shall enact rules and regulations governing the delivery of medical cannabis, including medical cannabis products, to a registered qualifying patient, designated caregiver, or institutional caregiver by a medical cannabis dispensary, which regulations shall require, at a minimum:
(1) Delivery of medical cannabis shall only be made to a registered qualifying patient at the patient’s home or secondary address, to the patient’s designated caregiver at the caregiver’s home address, or directly to the patient’s institutional caregiver at the health care facility where the patient is a current patient or resident; except that the commission shall establish a process for registered qualifying patients to request delivery directly to the patient at an alternate address in cases of need.

(2) Deliveries shall be performed by a medical cannabis handler who is certified by the department to perform deliveries, is at least 18 years of age, is not employed by any medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, medical cannabis dispensary, or clinical registrant or by an owner, officer, director, or significantly involved person in a medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, medical cannabis dispensary, or clinical registrant, and has entered into a contract with a medical cannabis dispensary or clinical registrant to perform deliveries of medical cannabis, which contract may provide for a one-time delivery or for ongoing deliveries of medical cannabis. A medical cannabis handler holding a delivery certification issued by the commission may simultaneously hold a transfer certification issued by the commission.

(3) Medical cannabis shall not be delivered to an address located on land owned by the federal government or any address on land or in a building leased by the federal government.

(4) All deliveries of medical cannabis shall be made in person. Delivery of medical cannabis shall not be made through the use of an unmanned vehicle.

(5) Each certified medical cannabis handler shall carry a copy of the individual’s medical cannabis handler certification card and delivery certification card when performing a delivery of medical cannabis. The medical cannabis handler shall present the certification cards upon request to State and local law enforcement and to State and local regulatory authorities and agencies.

(6) Each certified medical cannabis handler engaged in a delivery of medical cannabis shall have access to a secure form of communication with the medical cannabis dispensary or clinical registrant that furnished the medical cannabis to the handler for delivery, such as a cellular telephone, at all times that the handler is in possession of medical cannabis for delivery.

(7) During delivery, the certified medical cannabis handler shall maintain a physical or electronic copy of the delivery request, and shall make it available upon request to State and local law enforcement and to State and local regulatory authorities and agencies.
(8) Delivery vehicles shall be equipped with a secure lockbox in a secured cargo area, which shall be used for the sanitary and secure transport of medical cannabis.

(9) A certified medical cannabis handler shall not leave medical cannabis in an unattended vehicle unless the vehicle is locked and equipped with an active vehicle alarm system.

(10) A delivery vehicle shall contain a Global Positioning System (GPS) device for identifying the geographic location of the vehicle. The device shall be either permanently or temporarily affixed to the vehicle while the vehicle is in operation, and the device shall remain active and in the possession of the certified medical cannabis handler at all times during which the vehicle is engaged in the delivery of medical cannabis. At all times, the medical cannabis dispensary or clinical registrant that furnished the medical cannabis to the handler for delivery shall be able to identify the geographic location of all vehicles that are making deliveries for that entity and shall provide that information to the commission upon request.

(11) Each entity that employs a medical cannabis handler certified to deliver medical cannabis shall provide the commission with current information concerning all vehicles utilized for medical cannabis deliveries, including each vehicle’s make, model, color, Vehicle Identification Number, license plate number, and vehicle registration.

(12) A medical cannabis dispensary or clinical registrant furnishing medical cannabis to a medical cannabis handler for delivery shall maintain current hired and non-owned automobile liability insurance sufficient to insure all delivery vehicles in the amount of not less than $1,000,000 per occurrence or accident.

(13) Delivery vehicles shall bear no markings that would either identify or indicate that the vehicle is used to transport medical cannabis.

(14) All deliveries of medical cannabis shall be completed in a timely and efficient manner.

(15) While performing deliveries of medical cannabis, a certified medical cannabis handler shall only travel from the premises of the medical cannabis dispensary or clinical registrant furnishing the medical cannabis to the delivery address; from one delivery address to another delivery address; or from a delivery address back to the premises of the medical cannabis handler’s employer. A medical cannabis handler shall not deviate from the route described in this paragraph, except in the event of emergency or as necessary for rest, fuel, or vehicle repair stops, or because road conditions make continued use of the route or operation of the vehicle unsafe, impossible, or impracticable.
(16) The process of delivery shall begin when the certified medical cannabis handler leaves the premises of the medical cannabis dispensary or clinical registrant with medical cannabis for delivery. The process of delivering medical cannabis ends when the medical cannabis handler returns to the premises of the medical cannabis handler’s employer after completing the delivery.

(17) Each medical cannabis handler performing deliveries of medical cannabis shall maintain a record of each delivery in a log, which may be written or electronic. For each delivery, the log shall record:

(a) The date and time that the delivery began and ended;
(b) The handler’s name, medical cannabis handler certification number, and medical cannabis delivery certification number;
(c) The tracking number of the medical cannabis; and
(d) The signature and registry number of the patient or caregiver who accepted delivery.

(18) A medical cannabis handler shall report any vehicle accidents, diversions, losses, or other reportable events that occur during delivery of medical cannabis to the appropriate State and local authorities, including the commission. A medical cannabis cultivator, medical cannabis manufacturer, medical cannabis wholesaler, medical cannabis dispensary, or clinical registrant furnishing medical cannabis for delivery shall have no civil or criminal liability for any vehicle accidents, diversions, losses, or other reportable events that occur during delivery after such time as the cultivator, manufacturer, wholesaler, dispensary, or clinical registrant, as applicable, furnishes medical cannabis to the medical cannabis handler making the delivery.

(19) Subject to the requirements of paragraph (2) of this subsection, a medical cannabis dispensary or clinical registrant shall be authorized to use any medical cannabis handler for the purposes of delivering medical cannabis, and, subject to the requirements of paragraph (2) of this subsection, a medical cannabis handler possessing a delivery certification shall be authorized to provide medical cannabis transport services to any medical cannabis dispensary or clinical registrant.

j. Medical cannabis may be transferred or delivered, consistent with the requirements of subsections h. and i. of this section, respectively, to any location in the State. In no case may a municipality restrict transfers or deliveries of medical cannabis within that municipality by adoption of municipal ordinance or any other measure, and any restriction to the contrary shall be deemed void and unenforceable.

k. The commission may authorize the use of an Internet-based web service developed and maintained by an independent third party entity that does not hold any permit, license, or certificate.
issued pursuant to P.L.2009, c.307 (C.24:6I-1 et al.), and is not a
significantly involved person or other investor in any permit holder,
which web service may be used by registered qualifying patients,
designated caregivers, and institutional caregivers to request or
schedule deliveries of medical cannabis pursuant to subsection i. of
this section.¹

¹28. (New section) a. A municipality may authorize, through
the enactment of an ordinance, the operation of locally endorsed
medical cannabis consumption areas by medical cannabis
dispensaries and clinical registrants within its jurisdiction, at which
areas the on-premises consumption of medical cannabis may occur.

b. Applications for an endorsement pursuant to this section
shall be made to the commission in a form and manner as shall be
prescribed the commission and shall set forth such information as
the commission may require. Each application shall be verified by
the oath or affirmation of such persons as the commission may
prescribe. The endorsement shall be conditioned upon approval by
a municipality. An applicant is prohibited from operating a
cannabis consumption area without State and local approval. If the
applicant does not receive approval from the municipality within
one year after the date of State approval, the State endorsement
shall expire and may not be renewed. If an application is denied by
the municipality or the approval of the municipality is revoked, the
commission shall revoke the State endorsement. Any person
aggrieved by the local denial of an endorsement application may
request a hearing in the Superior Court of the county in which the
application was filed. The request for a hearing shall be filed
within 30 days after the date the application was denied. The
person shall serve a copy of the person’s request for a hearing upon
the appropriate officer for the municipality that denied the
application. The hearing shall be held and a record made thereof
within 30 days after the receipt of the application for a hearing. No
formal pleading and no filing fee shall be required for the hearing.

c. (1) The commission shall deny a State endorsement if the
premises on which the applicant proposes to conduct its business
does not meet the requirements of P.L.2009, c.307 (C.24:6I-1 et al.)
or for reasons set forth in this section. The commission may revoke
or deny an endorsement renewal, or reinstatement, or an initial
endorsement for good cause.

(2) For purposes of this subsection "good cause" means:
(a) the endorsed permit holder or applicant has violated, does
not meet, or has failed to comply with, any of the terms, conditions,
or provisions of this section, any rules promulgated pursuant to this
section, or any supplemental local laws, rules, or regulations;
(b) the endorsed permit holder or applicant has failed to comply with any special terms or conditions that were placed on its endorsement by the commission or municipality; or

c) the premises have been operated in a manner that adversely affects the public health or the safety of the immediate neighborhood in which the medical cannabis consumption area is located.

(3) Any commission decision made pursuant to this subsection shall be considered a final agency decision for the purposes of the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.) and may be subject to judicial review as provided in the Rules of Court.

d. A medical cannabis consumption area endorsement shall be valid for one year and may be renewed annually, subject to the approval of the commission and the municipality as set forth in this section. The commission shall establish by rule the amount of the application fee and renewal fee for the endorsement, which shall not exceed the administrative cost for processing and reviewing the application.

e. The commission shall maintain a list of all medical cannabis consumption areas in the State and shall make the list available on its Internet website.

f. A medical cannabis consumption area shall be located on the premises of a medical cannabis dispensary or clinical registrant, may be indoors or outdoors, and shall be designated by conspicuous signage.

(1) An indoor medical cannabis consumption area shall be a structurally enclosed area within a medical cannabis dispensary or clinical registrant facility that is separated by solid walls or windows from the area in which medical cannabis is dispensed and shall only be accessible through an interior door after first entering the facility.

(2) An outdoor medical cannabis consumption area shall be an exterior structure on the same premises as the medical cannabis dispensary or clinical registrant facility, that is either separate from or connected to the facility, and that is not required to be completely enclosed, but shall have sufficient walls, fences, or other barriers to prevent any view of patients consuming medical cannabis from any sidewalk or other pedestrian or non-motorist right-of-way, as the case may be, within the consumption area.

(3) Nothing in this subsection shall be construed to authorize the consumption of medical cannabis by smoking in any indoor public place or workplace, as those terms are defined in subsection 3 of P.L.2005, c.383 (C.26:3D-57), and the medical cannabis dispensary or clinical registrant operating the consumption area shall ensure that any smoking of medical cannabis that occurs in an outdoor...
medical cannabis consumption area does not result in migration, seepage, or recirculation of smoke to any indoor public place or workplace. The commission may require a consumption area to include any ventilation features as the commission deems necessary and appropriate.

g. (1) A medical cannabis dispensary or clinical registrant holding a medical cannabis consumption area endorsement, and the employees of the dispensary or clinical registrant, subject to any regulations for medical cannabis consumption areas promulgated by the commission, may permit a person to bring medical cannabis into a medical cannabis consumption area.

(2) A medical cannabis dispensary or clinical registrant holding a medical cannabis consumption area endorsement shall not sell alcohol, including fermented malt beverages or malt, vinous, or spirituous liquor, sell tobacco or nicotine products, or allow the consumption of alcohol, tobacco, or nicotine products on premises, or operate as a retail food establishment.

(3) A medical cannabis dispensary or clinical registrant holding a medical cannabis consumption area endorsement shall not allow on-duty employees of the establishment to consume any medical cannabis in the consumption area.

h. Access to a medical cannabis consumption area shall be restricted to employees of the medical cannabis dispensary or clinical registrant and to registered qualified patients and their designated caregivers.

i. When a patient leaves a medical cannabis consumption area, the establishment shall ensure any remaining unconsumed medical cannabis that is not taken by the patient or the patient’s designated caregiver is destroyed.

j. A medical cannabis consumption area and its employees:
   (1) shall operate the establishment in a decent, orderly, and respectable manner;

   (2) may remove an individual from the establishment for any reason;

   (3) shall not knowingly permit any activity or acts of disorderly conduct; and

   (4) shall not permit rowdiness, undue noise, or other disturbances or activity offensive to the average citizen or to the residents of the neighborhood in which the consumption area is located.

k. If an emergency requires law enforcement, firefighters, emergency medical services providers, or other public safety personnel to enter a medical cannabis consumption area, employees of the establishment shall prohibit on-site consumption of medical
cannabis until such personnel have completed their investigation or
services and have left the premises. 1

29. (New section) a. (1) The commission shall develop and
maintain a system for tracking the cultivation of medical cannabis,
the manufacturing of medical cannabis products, the transfer of
medical cannabis and medical cannabis products between medical
cannabis cultivators, medical cannabis manufacturers, medical
cannabis wholesalers, medical cannabis dispensaries, clinical
registrants, and testing laboratories as authorized pursuant to
paragraph (5) of subsection a. of section 7 of P.L.2009, c.307
(C.24:6I-7) and subsection h. of section 27 of P.L. ... (C. ...)
(pending before the Legislature as this bill), and the dispensing or
delivery of medical cannabis to registered qualifying patients,
designated caregivers, and institutional caregivers.

(2) The tracking system shall, among other features as
determined by the commission, utilize a stamp affixed to a
container or package for medical cannabis to assist in the collection
of the information required to be tracked pursuant to subsection c.
of this section.

(a) The commission, in consultation with the Director of the
Division of Taxation, shall secure stamps based on the designs,
specifications, and denominations prescribed by the commission in
regulation, and which incorporate encryption, security, and
counterfeit-resistant features to prevent the unauthorized

with, or represent, appear for, or negotiate on behalf of, any holder
of, or applicant for, a medical cannabis cultivator, medical cannabis

license if, in the judgment of the State Ethics Commission, the Joint

responsibilities of the person and will not create a conflict of
interest, or reasonable risk of the public perception of a conflict of
interest, on the part of the person;

[(2) (b)] an employee who is terminated as a result of a
reduction in the workforce at the agency where employed, other
than an employee who held a policy-making management position
at any time during the five years prior to termination of
employment, may, at any time prior to the end of the two-year
period, accept employment with the holder of, or applicant for, a

conflict of interest, on the part of the employee. In no case shall the
restrictions of this subsection apply to a secretarial or clerical
employee.

Nothing herein contained shall alter or amend the post-
