

ASSEMBLY AGRICULTURE AND NATURAL RESOURCES
COMMITTEE

STATEMENT TO

ASSEMBLY, No. 2732

STATE OF NEW JERSEY

DATED: FEBRUARY 12, 2018

The Assembly Agriculture and Natural Resources Committee favorably reports Assembly Bill No. 2732.

This bill clarifies existing law by specifically providing that non-lethal propane-powered noise making devices are noise making or other mechanical devices permitted to be used to prevent crop damage and destruction. Current law does not explicitly name these devices.
