

ASSEMBLY, No. 3607

STATE OF NEW JERSEY 218th LEGISLATURE

INTRODUCED MARCH 12, 2018

Sponsored by:

Assemblyman VINCENT MAZZEO

District 2 (Atlantic)

Assemblyman JOHN ARMATO

District 2 (Atlantic)

SYNOPSIS

Requires DOH to approve credentialing entity to develop and administer a voluntary recovery residence certification program.

CURRENT VERSION OF TEXT

As introduced.

1 AN ACT concerning the voluntary certification of recovery
2 residences, and supplementing Title 26 of the Revised Statutes.

3
4 **BE IT ENACTED** *by the Senate and General Assembly of the State*
5 *of New Jersey:*

6
7 1. As used in this act:

8 “Certificate of compliance” means a certificate, which is issued
9 by the credentialing entity to a recovery residence, and which
10 affirms that the recovery residence is in compliance with all
11 requirements necessary for certification, and is authorized to hold
12 itself out to the public as a certified recovery residence.

13 “Certified recovery residence” means a recovery residence that
14 holds a valid certificate of compliance issued pursuant to this act.

15 “Certified recovery residence administrator” means a recovery
16 residence administrator who holds a valid professional certification
17 issued pursuant to this act.

18 “Credentialing entity” means a nonprofit organization, operating
19 in New Jersey, which develops and administers professional
20 certification programs, and which is approved by the department to
21 develop and administer a recovery residence certification program
22 in this State, in accordance with the provisions of this act.

23 “Department” means the Department of Health.

24 “Peer-managed facility” means a recovery residence that is not
25 directly managed, on a day-to-day basis, by a recovery residence
26 administrator, but which, instead, is self-managed, on a cooperative
27 basis, by the residents in recovery who are renting rooms at the
28 facility.

29 “Professional certification” means a certificate that is issued by
30 the credentialing entity to a recovery residence administrator, and
31 which affirms that the administrator is in compliance with all
32 applicable professional certification requirements, and has been
33 deemed to be capable of managing a certified recovery residence.

34 “Professionally-managed facility” means a recovery residence
35 that is directly managed by a recovery residence administrator, and
36 is not a peer-managed facility.

37 “Recovery residence” means housing with a home-like
38 atmosphere, which is available in either a professionally-managed
39 facility or a peer-managed facility, and which provides a sober
40 living environment and alcohol and drug free living
41 accommodations to individuals with substance use disorders, or to
42 individuals with co-occurring mental health and substance use
43 disorders, but which does not provide clinical treatment services for
44 mental health or substance use disorders. “Recovery residence”
45 includes, but is not limited to, a facility that is commonly referred
46 to as a sober living home.

47 “Recovery residence administrator” means the owner or operator
48 of a recovery residence, who is responsible for the overall

1 management of the recovery residence, including, but not limited
2 to, the supervision of residents and staff; and who does not reside in
3 the recovery residence. “Recovery residence administrator” does
4 not include the owner or operator of a recovery residence who
5 manages the recovery residence while residing therein.

6 “Recovery residence certification program” means the program
7 established by the credentialing entity, pursuant to section 2 of this
8 act, which provides for the voluntary certification of recovery
9 residences, and the professional certification of recovery residence
10 administrators.

11 “Refer” means to inform a current or discharged patient, by any
12 means or method, about the name, address, or other details of a
13 recovery residence.

14 “Substance use disorder” means a maladaptive pattern of alcohol
15 or drug use that leads to clinically significant impairment or
16 distress. “Substance use disorder” includes drug or alcohol abuse
17 or drug or alcohol dependency, as confirmed by a clinical screening
18 and assessment instrument.

19
20 2. a. (1) Within 120 days after the enactment of this act, the
21 department shall approve a credentialing entity to develop and
22 administer a recovery residence certification program in the State.
23 The recovery residence certification program shall be developed in
24 accordance with the provisions of this section; shall be consistent
25 with applicable standards adopted by the National Alliance for
26 Recovery Residences (NARR); and shall become operational within
27 180 days after the credentialing entity is approved by the
28 department pursuant to this subsection.

29 (2) Using a portion of the moneys annually appropriated to the
30 department for its purposes, the department shall provide
31 appropriate funds to the credentialing entity, on an annual basis, to
32 enable the credentialing entity to fulfill its duties and
33 responsibilities under this section.

34 b. In developing and implementing a recovery residence
35 certification program, the credentialing entity shall:

36 (1) establish requirements for the voluntary certification of
37 recovery residences, and the annual recertification of certified
38 recovery residences;

39 (2) establish requirements for the voluntary professional
40 certification of recovery residence administrators, and the annual
41 recertification of certified recovery residence administrators;

42 (3) establish criminal background check requirements for the
43 administrators and employees of professionally-managed facilities,
44 as deemed by the credentialing entity to be necessary;

45 (4) administer all aspects of the recovery residence certification
46 program, and establish procedures as necessary to facilitate the
47 application, certification, and annual recertification processes used
48 in the program;

1 (5) engage in the on-site pre-certification inspection of recovery
2 residences that apply for a certificate of compliance;

3 (6) issue a certificate of compliance to any recovery residence,
4 upon application therefor; provided that the recovery residence is in
5 compliance with the provisions of subsection d. of this section; has
6 satisfactorily passed an on-site pre-certification inspection
7 conducted pursuant to paragraph (5) of this subsection; and satisfies
8 all additional requirements, established by the credentialing entity
9 under paragraph (1) of this subsection, which are necessary for
10 certification;

11 (7) issue a professional certification to any recovery residence
12 administrator, upon application therefor; provided that the
13 administrator satisfies all requirements, established by the
14 credentialing entity under paragraph (2) of this subsection, which
15 are necessary for professional certification;

16 (8) establish procedures and protocols for the regular monitoring
17 and inspection of certified recovery residences, which procedures
18 and protocols shall, at a minimum, require the credentialing entity
19 to conduct at least one unannounced on-site inspection of each
20 certified recovery residence, as a condition of annual recertification;
21 and

22 (9) establish an Internet website to provide information to the
23 public about the recovery residence certification program.

24 c. (1) Within 180 days after the recovery residence
25 certification program becomes operational, the credentialing entity
26 shall publish, on the website established pursuant to paragraph (9)
27 of subsection b. of this section, a list that provides contact
28 information for all of the recovery residences that have been issued
29 a certificate of compliance in accordance with program
30 requirements. Immediately after the publication of the list, the
31 credentialing entity shall notify the department that the list is
32 publicly available.

33 (2) The list of certified recovery residences that is published
34 pursuant to this subsection shall not include the names or contact
35 information of any individual residents of a recovery residence, but
36 shall, instead, provide contact information only for the residence,
37 itself, or for the owner of the residence, as deemed appropriate by
38 the credentialing entity. At no point shall the credentialing entity
39 disclose any personally identifying information about the residents
40 of a recovery residence.

41 (3) The credentialing entity shall regularly update the list of
42 certified recovery residences that is published pursuant to this
43 subsection, in order to ensure that the list reflects the most up-to-
44 date certification information, and omits reference to recovery
45 residences that have lost their certification.

46 d. A recovery residence shall not be eligible to obtain a
47 certificate of compliance under this section, unless it is managed by
48 a certified recovery residence administrator, or is a peer-managed

1 facility. A recovery residence that is professionally managed by an
2 uncertified recovery residence administrator shall remain ineligible
3 to obtain a certificate of compliance until such time as the recovery
4 residence administrator obtains professional certification pursuant
5 to this act. For the purposes of expediency, the credentialing entity
6 may consider an application for the professional certification of a
7 recovery residence administrator at the same time as it is
8 considering an application for certification of the recovery
9 residence.

10 e. A certificate of compliance issued to a recovery residence,
11 and a professional certification issued to a recovery residence
12 administrator, shall each be valid for one year from the date of
13 issuance.

14 f. (1) The credentialing entity may suspend, revoke, or refuse
15 to renew the certificate of compliance issued to a certified recovery
16 residence, if the credentialing entity finds that the certified recovery
17 residence is not in compliance with the requirements established by
18 the credentialing entity under paragraph (1) of subsection b. of this
19 section, or, if the credentialing entity determines that the certified
20 recovery residence is no longer in compliance with the requirements
21 of subsection d. of this section.

22 (2) The credentialing entity may suspend, revoke, or refuse to
23 renew the professional certification issued to a certified recovery
24 residence administrator, if the credentialing entity finds that the
25 certified recovery residence administrator is not in compliance with
26 the requirements established by the credentialing entity under
27 paragraph (2) of subsection b. of this section.

28

29 3. a. The department shall update its Internet website to reflect
30 the department's approval of a credentialing entity pursuant to this
31 act. The department's website shall identify the name and contact
32 information of the credentialing entity, and shall include a hyperlink
33 to the credentialing entity's Internet website, established in
34 accordance with paragraph (9) of subsection b. of section 2 of this
35 act.

36 b. Within 10 days after the department receives notice from the
37 credentialing entity, pursuant to subsection c. of section 2 of this
38 act, indicating that a list of certified recovery residences is available
39 on the credentialing entity's website, the department shall take
40 appropriate action to notify all health care practitioners and
41 substance use disorder treatment providers in the State about the
42 availability of the list, and the provisions of subsection c. of this
43 section.

44 c. (1) After receiving notice, pursuant to subsection b. of this
45 section, regarding the credentialing entity's publication of a list of
46 certified recovery residences, a health care practitioner or substance
47 use disorder treatment provider in this State shall be prohibited
48 from referring a current or discharged patient to a recovery

1 residence, unless: (a) the recovery residence is included in the list
2 of certified recovery residences that appears on the credentialing
3 entity's website; or (b) the recovery residence is owned or operated
4 by a licensed or certified substance use disorder treatment provider,
5 or by a wholly owned subsidiary thereof, regardless of whether the
6 recovery residence is listed as a certified recovery residence on the
7 credentialing entity's website.

8 (2) Nothing in this subsection shall be deemed to require a
9 health care practitioner or substance use disorder treatment provider
10 to refer any patient to a recovery residence.

11
12 4. a. A person shall not advertise, represent, or imply to the
13 public that a recovery residence is a certified recovery residence,
14 unless the recovery residence has obtained a certificate of
15 compliance pursuant to this act.

16 b. A recovery residence administrator shall not advertise,
17 represent, or imply to the public that the administrator is a certified
18 recovery residence administrator, unless the administrator has
19 obtained professional certification pursuant to this act.

20 c. A person who violates the provisions of this section shall be
21 subject to a civil penalty of up to \$1,000 for each offense. In
22 determining the amount of the civil penalty to be imposed pursuant
23 to this subsection, the department shall consider the nature, number,
24 and seriousness of the violations, as well as the ability of the
25 violator to pay the penalty, and any other factors determined to be
26 relevant.

27 d. A civil penalty imposed pursuant to this section may be
28 collected, with costs, in a summary proceeding initiated by the
29 department pursuant to the "Penalty Enforcement Act of 1999,"
30 P.L.1999, c.274 (C.2A:58-10 et seq.). The Superior Court and the
31 municipal court shall have jurisdiction to enforce the "Penalty
32 Enforcement Act of 1999" in connection with this act.

33
34 5. a. A recovery residence, whether or not it holds a certificate
35 of compliance issued pursuant to this act, shall not be considered to
36 be a health care facility within the meaning of the "Health Care
37 Facilities Planning Act," P.L.1971, c.136 (C.26:2H-1 et seq.), and
38 shall be exempt from the provisions of P.L.1971, c.136 (C.26:2H-1
39 et seq.) and the rules and regulations adopted pursuant thereto.

40 b. A recovery residence, whether or not it holds a certificate of
41 compliance issued pursuant to this act, shall not be considered to be
42 a substance use disorder treatment facility, and shall be exempt
43 from the provisions of P.L.1970, c.334 (C.26:2G-21 et seq.),
44 P.L.1975, c.305 (C.26:2B-7 et seq.), and the rules and regulations
45 adopted pursuant thereto.

46 c. A recovery residence that holds a valid certificate of
47 compliance, issued pursuant to this act, shall not be considered to
48 be a rooming or boarding house, and shall be exempt from the

1 provisions of the “Rooming and Boarding House Act of 1979,”
2 P.L.1979, c.496 (C.55:13B-1 et seq.) and any rules and regulations
3 adopted pursuant thereto. In addition, a certified recovery residence
4 shall be exempt from any rules and regulations governing the
5 operation or certification of recovery residences or sober living
6 homes, which rules and regulations were adopted by the
7 Department of Community Affairs, the Department of Health, or the
8 Department of Human Services prior to the effective date of this
9 act. This act shall supersede all other pre-existing rules and
10 regulations on this issue.

11

12 6. This act shall take effect immediately.

13

14

15

STATEMENT

16

17 This bill would require the Department of Health (DOH), within
18 120 days after the bill’s enactment, to approve a credentialing entity
19 to develop and administer a voluntary certification program for
20 recovery residences and recovery residence administrators in the
21 State. “Recovery residence” is defined by the bill to mean housing
22 with a home-like atmosphere, which is available in a professionally-
23 managed facility (i.e., a facility that is directly managed by a
24 recovery residence administrator) or in a peer-managed facility (i.e.,
25 a facility that is cooperatively self-managed by residents in
26 recovery who are renting rooms at the facility), and which provides
27 a sober living environment and alcohol and drug free living
28 accommodations to individuals with substance use disorders, or to
29 individuals with co-occurring mental health and substance use
30 disorders, but which does not provide clinical treatment services for
31 mental health or substance use disorders. The term would include,
32 but not be limited to, facilities that are commonly referred to as
33 sober living homes. “Recovery residence administrator” is defined
34 as the owner or operator of a recovery residence who is responsible
35 for the overall management of the recovery residence, including,
36 but not limited to, the supervision of residents and staff; and who
37 does not reside in the recovery residence.

38 The bill would require the DOH to use a portion of the moneys
39 annually appropriated thereto to provide appropriate funds to the
40 credentialing entity, on an annual basis, to enable the credentialing
41 entity to fulfill its duties and responsibilities under the bill’s
42 provisions.

43 In developing the recovery residence certification program
44 (which is to become operational within 180 days after the
45 credentialing entity is approved by the department), the
46 credentialing entity will be required to: (1) establish requirements
47 for the voluntary certification of recovery residences and recovery
48 residence administrators, and requirements for the annual

1 recertification of certified recovery residences and certified
2 recovery residence administrators; (2) establish criminal
3 background check requirements for the administrators and
4 employees of professionally-managed facilities (i.e., those facilities
5 that are managed by a professional administrator, and are not peer-
6 managed), as deemed by the credentialing entity to be necessary;
7 (3) administer all aspects of the certification program, and establish
8 procedures to facilitate the application, certification, and annual
9 recertification processes; (4) engage in the on-site pre-certification
10 inspection of recovery residences applying for certification; (5)
11 establish procedures and protocols for the regular monitoring and
12 inspection of certified recovery residences, which procedures and
13 protocols must, at a minimum, require at least one unannounced on-
14 site inspection of each certified recovery residence, as a condition
15 of annual recertification; and (6) establish an Internet website to
16 provide information to the public about the recovery residence
17 certification program. The requirements adopted under the
18 recovery residence certification program are to be consistent with
19 applicable standards adopted by the National Alliance for Recovery
20 Residences (NARR).

21 The credentialing entity would be required to issue a certificate
22 of compliance to any recovery residence, upon application therefor,
23 provided that the residence satisfactorily passes a pre-certification
24 inspection, complies with all other certification requirements
25 established by the credentialing entity, and is either professionally
26 managed by a certified recovery residence administrator, or is a
27 peer-managed facility. "Peer-managed facility" is defined as any
28 facility that is not directly managed by a recovery residence
29 administrator, but which is self-managed, on a cooperative basis, by
30 the residents in recovery who are renting rooms at the facility. A
31 recovery residence that is professionally managed by an uncertified
32 administrator will not be eligible to obtain a certificate of
33 compliance, until such time as the recovery residence administrator
34 obtains professional certification, as provided by the bill. The bill
35 would specify that, for the purposes of expediency, the
36 credentialing entity may consider an application for the professional
37 certification of an administrator at the same time as it is considering
38 an application for certification of the recovery residence.

39 Under the bill's provisions, a person would be prohibited from
40 advertising a recovery residence, or holding the residence out to the
41 public, as a "certified recovery residence," unless the recovery
42 residence has obtained a certificate of compliance from the
43 credentialing entity. Similarly, a recovery residence administrator
44 would be prohibited from advertising or holding himself or herself
45 out to the public as a "certified recovery residence administrator,"
46 unless the administrator has obtained a professional certification
47 from the credentialing entity. Any person who violates these

1 provisions would be subject to a civil penalty of up to \$1,000 for
2 each offense.

3 A certificate of compliance issued to a recovery residence, and a
4 professional certification issued to a recovery residence
5 administrator, would each be valid for a period of one year from the
6 date of issuance. The credentialing entity would be authorized to
7 suspend, revoke, or refuse to renew a certificate of compliance
8 issued to a recovery residence, if it finds that the residence has
9 violated any certification requirements; or that the residence, if
10 professionally managed, is no longer being managed by a certified
11 administrator. The credentialing entity would be authorized to
12 suspend, revoke, or refuse to renew the professional certification
13 issued to an administrator, if it finds that the administrator is not in
14 compliance with the requirements necessary to maintain such
15 certification.

16 Within 180 days after the recovery residence certification
17 program becomes operational, the credentialing entity will be
18 required to publish, on its website, a list that provides contact
19 information for all recovery residences that have obtained a
20 certificate of compliance pursuant to the bill's provisions. The
21 credentialing entity is to notify the DOH, immediately upon
22 publication, that the list is publicly available. The bill would
23 specify that the published list of certified recovery residences may
24 not include the names or contact information of any individual
25 residents of a recovery residence, but, instead, is to include contact
26 information only for the residence, itself, or for the owner of the
27 residence, as deemed appropriate by the credentialing entity. At no
28 point would the credentialing entity be authorized to disclose any
29 personally identifying information about the residents of a recovery
30 residence. The credentialing entity would be required to regularly
31 update the list of certified recovery residences that is published on
32 its website, in order to ensure that the list reflects the most up-to-
33 date certification information, and omits reference to recovery
34 residences that have lost their certification.

35 The DOH will similarly be required to update its website to
36 reflect its approval of the credentialing entity, and to provide the
37 public with the name and contact information of the credentialing
38 entity, as well as a link to the entity's website. Upon the
39 department's receipt of notice that the credentialing entity has
40 published a list of certified recovery residences, the DOH would be
41 required to notify all health care practitioners and substance use
42 disorder treatment providers in the State about the availability of
43 the list, and about the bill's requirements regarding professional
44 referrals to recovery residences. In particular, with respect to such
45 referrals, the bill provides that, following the receipt of notice
46 regarding the list's availability, a health care practitioner or
47 substance use disorder treatment provider will be prohibited from
48 referring a patient to a recovery residence, unless the recovery

1 residence is listed as a certified recovery residence on the
2 credentialing entity's website; or the recovery residence – whether
3 certified or not – is owned or operated by a licensed or certified
4 substance use disorder treatment provider, or by a wholly owned
5 subsidiary thereof. However, the bill would specify that nothing in
6 its provisions may be deemed to require a health care practitioner or
7 substance use disorder treatment provider to refer any patient to a
8 recovery residence.

9 The bill would specify that a recovery residence, whether
10 certified or not, may not be considered to be either a health care
11 facility within the meaning of the “Health Care Facilities Planning
12 Act,” P.L.1971, c.136 (C.26:2H-1 et seq.), or a substance use
13 disorder treatment facility within the meaning of P.L.1970, c.334
14 (C.26:2G-21 et seq.), and P.L.1975, c.305 (C.26:2B-7 et seq.). The
15 bill would further specify that any recovery residence that holds a
16 valid certificate of compliance, issued under the bill's provisions,
17 may not be considered to be a rooming or boarding house, and is to
18 be exempted from the provisions of the “Rooming and Boarding
19 House Act of 1979,” P.L.1979, c.496 (C.55:13B-1 et seq.) and any
20 rules or regulations adopted pursuant thereto. (Uncertified recovery
21 residences would, however, still remain subject to applicable
22 rooming and boarding house requirements.) In addition, a certified
23 recovery residence will be exempt from any rules and regulations
24 governing the operation or certification of recovery residences or
25 sober living homes, which rules and regulations were adopted by
26 the Department of Community Affairs, the Department of Health, or
27 the Department of Human Services prior to the bill's effective date.
28 This bill will effectively supersede all other pre-existing rules and
29 regulations on this issue.
