16 Reporting System (VAERS) co-managed by the federal Centers for
17 Disease Control and Prevention and the United States Food and
18 Drug Administration, which information shall include an overview
19 of the VAERS, instructions on how to report vaccine injuries, a
20 copy of the Reportable Events Table, and a copy of the Vaccine
21 Injury Table;

22 (2) the practitioner provides the patient, or the patient's parent
23 or guardian, in the case of a patient who is an unemancipated minor,
24 with the option to opt out of receiving the vaccine, along with a
25 description of the potential implications of opting out of the
26 vaccine, including the risks of contracting or transmitting a
27 communicable infectious disease and the potential that the patient
28 may not be allowed to attend school unless the patient obtains a
29 medical or religious exemption from student immunization
30 requirements for that vaccine; and

31 (3) the patient, or the patient's parent or guardian, as applicable,
32 returns a signed copy of the vaccine insert confirming the patient
33 consents to receive the vaccine.

34 b. A health care practitioner may not refuse to provide health
35 care services to a patient or seek to transfer care of the patient to
36 another health care practitioner solely on the basis of the patient's
37 refusal to receive a vaccine.

38 c. Except in the course of a public health emergency declared
39 pursuant to P.L.2005, c.222 (C.26:13-1 et seq.), no vaccine may be

28 administer an influenza vaccine to a patient who is seven years of
29 age or older. For a patient who is under 18 years of age, a
30 pharmacist, pharmacy intern, or pharmacy extern shall not
31 administer a vaccine except with the permission of the patient's
32 parent or legal guardian. For a patient who is under 10 years of age,
33 a pharmacist, pharmacy intern, or pharmacy extern shall not
34 administer a vaccine unless pursuant to a prescription by an
35 authorized prescriber. Nothing in this subsection shall be construed
36 to require a patient 10 years of age or older to obtain a prescription
37 for an influenza vaccine.

38 (3) A pharmacy intern or pharmacy extern, as defined by
39 regulation of the New Jersey State Board of Pharmacy, may
40 administer immunizations to patients by injection or by other
41 delivery method, provided that the pharmacy intern or pharmacy
42 extern is acting under the direct supervision of a licensed
43 pharmacist who is pre-approved by the New Jersey State Board of
44 Pharmacy to administer vaccines and related emergency
45 medications, and who is in compliance with the rules jointly
46 promulgated by the New Jersey State Board of Pharmacy and the
47 State Board of Medical Examiners.

1 c. An immunization administered to a patient by a pharmacist,
2 pharmacy intern, or pharmacy extern shall be reported by a
3 supervising pharmacist to the New Jersey Immunization
4 Information System established pursuant to section 4 of P.L.2004,
5 c.138 (C.26:4-134) as required pursuant to N.J.A.C.8:57-3.16, for
6 inclusion in the patient's registry.

12 STATEMENT

13
14 This bill revises the requirements to administer vaccines to
15 patients. Specifically, the bill requires that, at least at least 48 hours
16 prior to administration of the vaccine, the health care practitioner
17 who will administer the vaccine is to furnishes to the to the patient,
18 or to the patient's parent or guardian in the case of a patient who is
19 an unemancipated minor, a copy of the vaccine insert for the
20 vaccine and information concerning the Vaccine Adverse Event
21 Reporting System (VAERS) co-managed by the federal Centers for
22 Disease Control and Prevention and the United States Food and
23 Drug Administration, including an overview of the VAERS,
24 instructions on how to report vaccine injuries, a copy of the
25 Reportable Events Table, and a copy of the Vaccine Injury Table.
26 A vaccine may be administered only if the patient, or the patient's
27 parent or guardian, returns a signed copy of the vaccine insert
28 confirming the patient consents to receive the vaccine.

29 The health care practitioner will additionally be required to
30 provide the patient, or the patient's parent or guardian, as
31 applicable, with the option to opt out of receiving the vaccine, along
32 with a description of the potential implications of opting out of the
33 vaccine, including the risks of contracting or transmitting a
34 communicable infectious disease and the potential that the patient
35 may not be allowed to attend school unless the patient obtains a
36 medical or religious exemption from student immunization
37 requirements for that vaccine.

38 The bill provides that a health care practitioner may not refuse to
39 provide health care services to a patient or seek to transfer care of
40 the patient to another health care practitioner solely on the basis of
41 the patient's refusal to receive a vaccine.

42 The bill further provides that, except in the course of a public
43 health emergency declared pursuant to P.L.2005, c.222 (C.26:13-1
44 et seq.), no vaccine may be administered pursuant to a standing
45 order.
