Such signage shall be distributed directly to the various facilities identified in subsection a. of this section, and shall additionally be posted, in a printable format, on the department’s Internet website. A facility that is required to provide a lactation room pursuant to subsection a. of this section shall display the signage prepared under this subsection in a clear and conspicuous manner in the facility’s public waiting room, as well as in any lactation room that is made available pursuant to this act.
   c. No later than one year after the effective date of this act, the department shall establish, and shall post at a publicly accessible location on its Internet website, a list of all facilities that have made lactation rooms available pursuant to this section. Thereafter, the department shall make regular updates to the list, as may be necessary to ensure that it reflects the most up-to-date information on the availability of lactation rooms in the State. The list established pursuant to this subsection shall additionally include a hyperlink to the
reports on school lactation-related policies that have been posted on the Department of Education website in accordance with the provisions of section 3 of this act.

d. The department may adopt rules and regulations, pursuant to the “Administrative Procedure Act,” P.L.1968, c.410 (C.52:14B-1 et seq.), to implement the provisions of this section, including rules and regulations that establish guidelines for the location and placement of lactation rooms within a facility, and rules and regulations that establish training requirements for staff who are employed at a facility where a lactation room is required.

b. Each report submitted pursuant to this section shall: (1) summarize the applicable policies in this area; (2) indicate the number and percentage of policies that authorize access to a designated lactation room; and (3) indicate the manner in which such policies were communicated to students, parents, and guardians during the preceding school year.

c. Each report submitted pursuant to this section shall be posted at a publicly-accessible location on the Department of Education’s Internet website.
