10 pilot program. The purpose of the pilot program is to foster family
11 economic self-sufficiency in low-income households by delivering
12 academic and job readiness support services across two generations
13 in the same household. Households may include, but need not be
14 limited to, mothers, fathers, noncustodial parents, and other primary
15 caregivers. The pilot program shall be located in municipalities
16 designated by the Commissioner of Education which have a poverty
17 rate that is at least twice the Statewide average poverty rate. The
18 pilot sites shall work together as a learning community, informed by
19 members of low-income households within the pilot sites, peer-to-
20 peer exchanges, and technical assistance in best practices.

21
22 2. The two-generational school readiness and workforce
23 development pilot program shall serve as a blueprint for a
24 Statewide, two-generational school readiness and workforce
25 development model. The pilot program may include opportunities
26 for Statewide learning, in addition to the pilot sites, in two-
27 generational system building and policy development. The pilot
28 program shall be funded by the State and any available private
29 moneys ¹**[and]** . The annual amount of State funds appropriated to
30 the pilot program shall not exceed \$1,500,000. The pilot program¹
31 shall include:

32 a. early learning programs, adult education, child care,
33 housing, job training, transportation, financial literacy, and other

35 mental health services, offered at one location, wherever possible;

36 b. development of a long-term plan to adopt a two-generational
37 model for the delivery of the services described in subsection a. of
38 this section on a Statewide basis. The plan shall include, but need
39 not be limited to, the targeted use of Temporary Assistance for
40 Needy Families (TANF) funds, to the extent permissible under
41 federal law, to support two-generational programming, and State
42 grant incentives for private entities that develop two-generational
43 programming;
