access to health care and health services in the judgment of the
Chief Executive Officer of the authority and will include a health
care and health services center with a minimum of 10,000 square
feet of space devoted to the provision of health care and health
services;

(c) located in a distressed municipality which has a business
located therein that is required to respond to a request for proposal
to fulfill a contract with the federal government as set forth in
subsection d. of section 3 of P.L.2011, c.149 (C.34:1B-244);

(d) a transit project;

(e) a qualified residential project in which at least 10 percent of
the residential units are constructed as and reserved for moderate
income housing;

(f) located in a highlands development credit receiving area or
redevelopment area;

(g) located in a Garden State Growth Zone;

(h) a disaster recovery project;

(i) an aviation project;

(j) a tourism destination project; or

(k) substantial rehabilitation or renovation of an existing
structure or structures.

(3) The maximum amount of any redevelopment incentive grant
shall be equal to up to 30 percent of the total project costs, except
for projects located in a Garden State Growth Zone, in which case
the maximum amount of any redevelopment incentive grant shall be
equal to up to 40 percent of the total project costs. Notwithstanding
anything to the contrary contained within this section, the maximum
amount of any redevelopment incentive grant with respect to a
mixed use parking project shall be up to 100 percent of the total
project costs allocable to the parking component of the project, and
shall be up to 40 percent of the total project costs allocable to the
non-parking component of the project.

e. Except in the case of a qualified residential project, a mixed
use parking project, or a project involving university infrastructure,
the authority and the State Treasurer may enter into a
redevelopment incentive grant agreement only if they make a
finding that the State revenues to be realized from the
redevelopment project will be in excess of the amount necessary to
reimburse the developer for its project financing gap. This finding
may be made by an estimation based upon the professional
judgment of the Chief Executive Officer of the authority and the
State Treasurer.

f. In deciding whether to recommend entering into a
redevelopment incentive grant agreement and in negotiating a
redevelopment agreement with a developer, the Chief Executive
Officer of the authority shall consider the following factors:

1. the economic feasibility of the redevelopment project;
2. the extent of economic and related social distress in the
municipality and the area to be affected by the redevelopment
project or the level of site specific distress to include dilapidated
conditions, brownfields designation, environmental contamination,
pattern of vacancy, abandonment, or underutilization of the
property, rate of foreclosures, or other site conditions as determined
by the authority;
3. the degree to which the redevelopment project will advance
State, regional, and local development and planning strategies;
4. the likelihood that the redevelopment project shall, upon
completion, be capable of generating new tax revenue in an amount
in excess of the amount necessary to reimburse the developer for
project costs incurred as provided in the redevelopment incentive
grant agreement, provided, however, that any tax revenue generated
by a redevelopment project that is a disaster recovery project shall
be considered new tax revenue even if the same or more tax revenue
was generated at or on the site prior to the disaster;
5. the relationship of the redevelopment project to a
comprehensive local development strategy, including other major
projects undertaken within the municipality;
6. the need of the redevelopment incentive grant agreement to
the viability of the redevelopment project or the promotion of the
use of public transportation; and
7. the degree to which the redevelopment project enhances and
promotes job creation and economic development or the promotion
of the use of public transportation.

(1) A developer who has entered into a redevelopment
incentive grant agreement with the authority and the State Treasurer
pursuant to this section may, upon notice to and consent of the
authority and the State Treasurer, pledge, assign, transfer, or sell
any or all of its right, title and interest in and to the agreements and
in the incentive grants payable thereunder, and the right to receive same, along with the rights and remedies provided to the developer under the agreement. Any such assignment shall be an absolute assignment for all purposes, including the federal bankruptcy code.

(2) Any pledge of incentive grants made by the developer shall be valid and binding from the time the pledge is made and filed in the records of the authority. The incentive grants pledged and thereafter received by the developer shall immediately be subject to the lien of the pledge without any physical delivery thereof or further act, and the lien of any pledge shall be valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the developer irrespective of whether the parties have notice thereof. Neither the redevelopment incentive grant agreement nor any other instrument by which a pledge under this section is created need be filed or recorded except with the authority.

(cf: P.L.2015, c.242, s.4)

5. This act shall take effect immediately.

STATEMENT

This bill would provide up to $600 million in tax credits available to developers to construct certain affordable housing projects. In order to qualify for the tax credit, a developer must construct a residential project in which at least 50 percent of the residential units are constructed and reserved for very low-, low-, and moderate-income housing, of which, at least 13 percent must be reserved for very low-income housing. Developers would apply for tax credits in the same manner in which developers applied for grants under the State Economic Redevelopment and Growth Grant program.
