20 STATEMENT

21  
22 Under current law a sending school district is responsible for the  
23 transportation costs of its resident pupils attending a school of a  
24 county vocational school district, whether it is the county vocational  
25 school district in the county in which the sending district is located  
26 or in another county. In the case of students attending a county  
27 vocational school district outside the county of residence, this bill  
28 would limit the amount for which the sending district would be  
29 responsible to the aid-in-lieu-of transportation amount set annually  
30 for students attending nonpublic schools. For the 2017-2018 school  
31 year the amount is \$1000. If a sending district is unable to provide  
32 transportation for that amount or less, the parent or guardian of the  
33 pupil would be eligible to receive the aid-in-lieu-of transportation  
34 amount toward the cost of the transportation.
