2

1 A CONCURRENT RESOLUTION proposing to amend Article I of the 2 New Jersey Constitution by adding a new paragraph. 3 4 **BE IT RESOLVED** by the Senate of the State of New Jersey (the 5 General Assembly concurring): 6 7 1. The following proposed amendment to the Constitution of 8 the State of New Jersey is agreed to: 9 10 PROPOSED AMENDMENT 11 12 Amend Article I by adding a new paragraph 24 to read as 13 follows: 24. (a) Every person has a right to a clean and healthy 14 15 environment, including pure water, clean air, and ecologically 16 healthy habitats, and to the preservation of the natural, scenic, 17 historic, and esthetic qualities of the environment. The State shall 18 not infringe upon these rights, by action or inaction. 19 (b) The State's public natural resources, among them its waters, 20 air, flora, fauna, climate, and public lands, are the common property 21 of all the people, including both present and future generations. 22 The State shall serve as trustee of these resources, and shall 23 conserve and maintain them for the benefit of all people. 24 (c) This paragraph and the rights stated herein are (1) self-25 executing, and (2) shall be in addition to any rights conferred by the 26 public trust doctrine or common law. 27 2. When this proposed amendment to the Constitution is finally 28 29 agreed to pursuant to Article IX, paragraph 1 of the Constitution, it 30 shall be submitted to the people at the next general election 31 occurring more than three months after the final agreement and 32 shall be published at least once in at least one newspaper of each 33 county designated by the President of the Senate, the Speaker of the 34 General Assembly and the Secretary of State, not less than three 35 months prior to the general election. 36 37 3. This proposed amendment to the Constitution shall be submitted to the people at that election in the following manner and 38 39 form: 40 There shall be printed on each official ballot to be used at the 41 general election, the following: 42 In every municipality in which voting machines are not used, a. 43 a legend which shall immediately precede the question as follows: 44 If you favor the proposition printed below make a cross (X), plus (+), or check ( $\checkmark$ ) in the square opposite the word "Yes." If you are 45 opposed thereto make a cross (X), plus (+) or check ( $\checkmark$ ) in the 46 47 square opposite the word "No." b. In every municipality the following question: 48

### SCR134 GREENSTEIN, BATEMAN

	CONSTITUTIONAL AMENDMENT TO
	ENSURE THE PEOPLE'S
	ENVIRONMENTAL RIGHTS
	Do you approve amending the Constitution
YES	to grant every person the right to a clean and
	healthy environment? The amendment
	would also require the State to protect
	public natural resources.
NO	INTERPRETIVE STATEMENT
	This amendment provides that every person
	has a constitutional right to a clean
	environment. This includes the right to
	clean air, pure water, and healthy habitats.
	The amendment would require the State to
	preserve public natural resources. The State
	would also be required to prevent others
	from destroying or damaging public natural
	resources.
SCHEDULE	
This constitutional amendment shall become part of	
Constitution on March 1 next following the general election	
which it is approved by the voters.	

#### STATEMENT

the

at

12 This proposed constitutional amendment would prevent the State 13 from infringing on the right to a clean environment, and would 14 make the State the trustee of all public natural resources.

15 This proposed constitutional amendment would guarantee two separate rights in the people of the State. The first right is the right 16 of citizens to the preservation of certain values of the environment. 17 Specifically, this clause requires the State to consider the effect of 18 19 any proposed action on pure water, clean air, and ecologically 20 healthy habitats, and on the preservation of the natural, scenic, historic, and esthetic qualities of the environment, before taking 21 22 The State may rely on agency determinations for the action. 23 interpretation of "clean air" and "pure water," and other technical 24 benchmarks; however, following agency interpretation does not automatically guarantee constitutional compliance if the agency 25 interpretation and implementation fall below reasonable standards. 26 27 This clause does not call for an end to all new economic 28 development, or the sacrifice of other fundamental values like 29 constitutionally-protected property rights. Rather, it preserves

environmental values, and states that governmental action cannot
take place without a reasonable effort to address the environmental

3 effects of development.

4 The second right to be guaranteed by this proposed constitutional 5 amendment is the common ownership of the people, including 6 future generations, of New Jersey's public natural resources, with 7 the State serving as trustee of those resources. This second clause 8 applies to a narrower category of "public natural resources" than the 9 first clause of the amendment and includes the waters, air, flora, 10 fauna, climate, and public lands of the State. The term "public 11 natural resources" is not exclusively defined and is amenable to 12 change over time to conform to the development of new legal and societal concerns. The term is flexible and may capture the full 13 array of resources implicating the public interest. 14

15 The State would serve as trustee of these public natural 16 resources, with the people as named beneficiaries of the trust. 17 "Trust" is used as a term of art to carry specific legal implications. 18 This trust is more than a statement of government power to use 19 public property for public purposes; it is an affirmation of the duty 20 of the State to protect the people's common environmental heritage. 21 The State may only surrender that right of protection in rare cases when the abandonment of that right is consistent with the purposes 22 23 of preserving the trust. The explicit terms of the trust require the 24 State to conserve and maintain the principal of the trust (i.e., the 25 public natural resources) and impose a duty to prevent and remedy 26 the degradation, diminution, or depletion of the public natural 27 resources. The State has an obligation to carry out these trust 28 responsibilities, whether through direct action, or through 29 restraining private parties from acting.

30 As with the first right guaranteed by this proposed amendment, 31 the duties to conserve and maintain are tempered by legitimate 32 development tending to improve upon the lot of the citizenry, with 33 the goal of promoting sustainable development. This amendment 34 does not prohibit de minimis damage to the environment that does 35 not impact the health of public natural resources. The beneficiaries of the trust are all the people of New Jersey, including generations 36 37 yet to come. The State, as trustee, has the obligation to deal impartially with all beneficiaries, and must balance the interests of 38 39 present and future beneficiaries. This implicates equitable access 40 and distribution of public natural resources and reinforces the cross-41 generational dimension of the conservation imperative. Future 42 beneficiaries are entitled to equal access and distribution of the resources, thus the State may not manage public resources in a 43 44 manner that would deprive future generations of the same uses 45 available to present generations. This recognizes the practical 46 reality that environmental changes, while at times incremental, have 47 a compounding effect and develop over generations. This proposed 48 amendment offers protection equally against actions with

## SCR134 GREENSTEIN, BATEMAN

5

1 immediate severe impact on public natural resources and against 2 actions with insignificant present consequences that are actually or 3 likely to have significant or irreversible effects when compounded 4 over the long term. 5 The amendment is self-executing, and therefore does not require 6 affirmative legislative action to take effect. The rights in this 7 proposed amendment are in addition to any rights available under 8 the public trust doctrine and common law. This constitutional 9 amendment seeks to broaden the types of lawsuits that citizens may 10 bring against the State (and any of its political subdivisions when

11 they are acting) in order to enforce environmental values.

12 This proposed constitutional amendment is based in part on 13 Pennsylvania's environmental rights amendment (Article I, Section 14 27 of the Pennsylvania Constitution)

14 27 of the Pennsylvania Constitution).
