SYNOPSIS
Extends certain permits, approvals, and deadlines during COVID-19 emergency.

CURRENT VERSION OF TEXT
As reported by the Assembly Appropriations Committee on May 11, 2020, with amendments.
AN ACT extending certain governmental permits, approvals, and deadlines during the public health emergency created by the COVID-19 emergency, and amending P.L.2008, c.78 and supplementing Title 40 of the Revised Statutes.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section 2 of P.L.2008, c.78 (C.40:55D-136.2) is amended to read as follows:

2. The Legislature finds and declares that:
   a. The most recent national recession has caused one of the longest economic downturns since the Great Depression of the 1930s and has drastically affected various segments of the New Jersey economy, but none as severely as the State's banking, real estate and construction sectors.
   b. The real estate finance sector of the economy is in severe decline due to the sub-prime mortgage problem and the resultant widening mortgage finance crisis. The extreme tightening of lending standards for home buyers and other real estate borrowers has reduced access to the capital markets.
   c. As a result of the crisis in the real estate finance sector of the economy, real estate developers and redevelopers, including homebuilders, and commercial, office, and industrial developers, have experienced an industry-wide decline, including reduced demand, cancelled orders, declining sales and rentals, price reductions, increased inventory, fewer buyers who qualify to purchase homes, layoffs, and scaled back growth plans.
   d. The process of obtaining planning board and zoning board of adjustment approvals for subdivisions, site plans, and variances can be difficult, time consuming and expensive, both for private applicants and government bodies.
   e. The process of obtaining the myriad other government approvals, required pursuant to legislative enactments and their implementing rules and regulations, such as wetlands permits, treatment works approvals, on-site wastewater disposal permits, stream encroachment permits, flood hazard area permits, highway access permits, and numerous waivers and variances, also can be difficult and expensive; further, changes in the law can render these approvals, if expired or lapsed, impossible to renew or re-obtain.
   f. County and municipal governments obtain determinations of master plan consistency, conformance, or endorsement with State or regional plans, from State and regional government entities which may expire or lapse without implementation due to the state of the economy.

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.
Matter enclosed in superscript numerals has been adopted as follows:
Assembly AAP committee amendments adopted May 11, 2020.
g. The most recent national recession has severely weakened
the building industry, and many landowners and developers are
seeing their life's work destroyed by the lack of credit and dearth of
buyers and tenants, due to the crisis in real estate financing and the
building industry, uncertainty over the state of the economy, and
increasing levels of unemployment in the construction industry.

h. The construction industry and related trades are sustaining
severe economic losses, and the lapsing of government development
approvals would, if not addressed, exacerbate those losses.

i. Financial institutions that lent money to property owners,
builters, and developers are experiencing erosion of collateral and
depreciation of their assets as permits and approvals expire, and the
extension of these permits and approvals is necessary to maintain
the value of the collateral and the solvency of financial institutions
throughout the State.

j. Due to the current inability of builders and their purchasers
to obtain financing, under existing economic conditions, more and
more once-approved permits are expiring or lapsing and, as these
approvals lapse, lenders must re-appraise and thereafter
substantially lower real estate valuations established in conjunction
with approved projects, thereby requiring the reclassification of
numerous loans which, in turn, affects the stability of the banking
system and reduces the funds available for future lending, thus
creating more severe restrictions on credit and leading to a vicious
cycle of default.

k. As a result of the continued downturn of the economy, and
the continued expiration of approvals which were granted by State
and local governments, it is possible that thousands of government
actions will be undone by the passage of time.

l. Obtaining an extension of an approval pursuant to existing
statutory or regulatory provisions can be both costly in terms of
time and financial resources, and insufficient to cope with the
extent of the present financial situation; moreover, the costs
imposed fall on the public as well as the private sector.

m. It is the purpose of this act to prevent the wholesale
abandonment of approved projects and activities due to the present
unfavorable economic conditions, by tolling the term of these
approvals for a period of time, thereby preventing a waste of public
and private resources.

n. Due to the need to implement strict social distancing
measures and take other precautions in order to limit the spread of
COVID-19 and minimize its public health impacts, much business
and government activity has been halted, disrupted, or delayed.
This has in turn resulted in a severe downturn in the economy. It is
therefore appropriate to toll the term of approvals during a new
COVID-19 extension period in order to prevent the abandonment of
approved projects and activities, and the waste of public and private
resources that comes with it, as well as to be ready to quickly
resume projects when it is safe to restart normal business and
government activity.

e. In the event that any approval tolled pursuant to P.L.2008, c.78 (C.40:55D-136.1 et seq.) is based upon the connection to a sanitary sewer system, the approval’s extension shall be contingent upon the availability of sufficient capacity, on the part of the treatment facility, to accommodate the development whose approval has been extended. If sufficient capacity is not available, those permit holders whose approvals have been extended shall have priority with regard to the further allocation of gallonage over those approval holders who have not received approval of a hookup prior to the date of enactment of P.L.2008, c.78 (C.40:55D-136.1 et seq.). Priority regarding the distribution of further gallonage to any permit holder who has received the extension of an approval pursuant to P.L.2008, c.78 (C.40:55D-136.1 et seq.) shall be allocated in order of the granting of the original approval of the connection.

f. P.L.2008, c.78 (C.40:55D-136.1 et seq.) shall not toll any approval issued under the "Municipal Land Use Law," P.L.1975, c.291 (C.40:55D-1 et seq.) in connection with an application for development involving a residential use where, subsequent to the expiration of the permit but prior to January 1, 2007, an amendment has been adopted to the master plan and the zoning ordinance to rezone the property to industrial or commercial use when the permit was issued for residential use.

g. Nothing in P.L.2008, c.78 (C.40:55D-136.1 et seq.) shall be construed or implemented in such a way as to modify any requirement of law that is necessary to retain federal delegation to, or assumption by, the State of the authority to implement a federal law or program.

i. All underlying municipal, county, and State permits or approvals within the extension area as defined in section 3 of P.L.2008, c.78 (C.40:55D-136.3), as amended, are extended in the
(c.f.: P.L.2016, c.14, s.2)

6. (New Section) Notwithstanding any provision of P.L.1975, c.291 (C.40:55D-1 et seq.) to the contrary,
