13 14 15 STATEMENT

16
17 This bill would provide for the reimbursement of small
18 municipalities that are involved in the adjudication of State and
19 federal fish and game laws.

20 The Division of Fish and Wildlife is generally responsible for
21 overseeing and enforcing fish and game laws in the State, and State
22 law currently provides that all penalty amounts recovered for
23 violations of the State’s fish and game laws, rules, and regulations
24 must be paid, in full, to the division. This provision of law,
25 however, fails to recognize that local governments are often left
26 with the burden of paying, at their own expense, the costs
27 associated with the adjudication of fish and game violations. Small
28 municipalities – defined under the bill as those that have “a
29 permanent population of less than 2,000 persons” – are particularly
30 ill equipped to finance these judicial efforts.

31 This bill would, therefore, amend the law to provide that
32 whenever a court action is undertaken in the municipal court of a
33 small municipality, which court action results in the assessment of
34 penalty moneys for a violation of the State’s fish and game laws, 50
35 percent of the recovered moneys must be paid to the governing
36 body of the municipality in which the court action took place, while
37 the remaining 50 percent of recovered moneys must be paid to the
38 Division of Fish and Wildlife.

39 The bill would also entitle a small municipality to receive 50
40 percent of the moneys recovered for a violation of a federal fish and
41 game law or regulation when the moneys are recovered as a result
42 of a municipal court action undertaken in the small municipality, so
43 long as such action is not prohibited by federal law. In all other
44 cases of federal fish and game law enforcement, however, and
45 unless prohibited by federal law, any recovered moneys would be
46 paid, in full, to the Division of Fish and Wildlife.

47 A person who fails to forward recovered moneys to the division
48 or the adjudicating small municipality, as required by the bill,

1 would be guilty of a crime of the fourth degree. Although this
2 offense currently exists in the law, it is referenced as a
3 “misdemeanor” – an outdated term that is no longer used in the
4 State. Because a crime that was previously characterized as a
5 misdemeanor is now classified as a crime of the fourth degree, the
6 bill updates the language in the existing law without changing the
7 penalty for the offense.
