

SENATE, No. 339

STATE OF NEW JERSEY 219th LEGISLATURE

PRE-FILED FOR INTRODUCTION IN THE 2020 SESSION

Sponsored by:

Senator BOB SMITH

District 17 (Middlesex and Somerset)

SYNOPSIS

“Water Resources Protection Trust Fund Act”; establishes user fee on water consumption and diversion; utilizes fee revenue for water quality, supply, and infrastructure projects.

CURRENT VERSION OF TEXT

Introduced Pending Technical Review by Legislative Counsel.

1 AN ACT concerning water quality, supply, and infrastructure,
2 supplementing Title 58 of the Revised Statutes, and amending
3 P.L.1985, c.334.
4

5 **BE IT ENACTED** *by the Senate and General Assembly of the State*
6 *of New Jersey:*
7

8 1. (New section) Sections 1 through 10 of P.L. , c. (C.)
9 (pending before the Legislature as this bill) shall be known and may
10 be cited as the “Water Resources Protection Trust Fund Act.”
11

12 2. (New section) The Legislature finds and declares that New
13 Jersey, already the most densely populated state in the nation,
14 continues to experience deterioration of its water resources,
15 including its rivers, streams, lakes, wetlands, and underground
16 aquifers; that these resources, by virtue of their capacity to sustain
17 substantial reserves of potable water, afford flood protection, serve
18 as habitat for countless animal, bird, and plant species, purify the
19 air, provide recreational opportunities, and otherwise promote the
20 environment necessary for a high quality of life, constitute not only
21 an invaluable and irreplaceable asset to the present citizens of New
22 Jersey, but also a trust for future generations; and that, as the
23 steward of that trust, it is incumbent upon the State to commit itself
24 to the preservation in perpetuity of those resources indispensable to
25 the continued supply of clean water and to the health and welfare of
26 its citizens.

27 The Legislature further finds and declares that much of the
28 State’s drinking water infrastructure has aged past its useful life and
29 is in dire need of repair and replacement; that failure to repair or
30 replace broken pipes has led to increased water main breaks and
31 service interruptions, more frequent and costly emergency repairs,
32 the loss of large quantities of treated drinking water to leakage, and
33 a lack of sufficient water infrastructure to support local and State
34 economic growth; that lead in drinking water infrastructure still
35 threatens the health and safety of the citizens of the State, especially
36 pregnant women and children; that a modern and reliable water
37 infrastructure provides the foundation for healthy communities and
38 a prosperous economy; and that current levels of federal, State, and
39 local funding are insufficient to ensure the preservation of the
40 State’s water resources and to make the necessary improvements to
41 the State’s water infrastructure.

42 The Legislature therefore determines that it is in the public
43 interest to establish a stable source of funding, based on user fees
44 on water consumption and water diversion, for the long-term

EXPLANATION – Matter enclosed in bold-faced brackets **[thus]** in the above bill is
not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

1 preservation and protection of the State's water resources and the
2 improvement of its drinking water infrastructure.

3

4 3. (New section) As used in sections 1 through 10 of
5 P.L. , c. (C.) (pending before the Legislature as this bill):

6 “Acquisition” means the obtaining of a fee simple or lesser
7 interest in land, including, but not limited to, a development
8 easement, a conservation restriction or easement, or any other
9 restriction or easement permanently restricting development, by
10 purchase, installment purchase agreement, gift, donation, eminent
11 domain by the State or a local government unit, or devise.

12 “Combined sewer overflow” means the discharge of untreated or
13 partially treated stormwater runoff and wastewater from a combined
14 sewer system into a body of water.

15 “Combined sewer system” means a sewer system designed to
16 carry wastewater at all times, which is also designed to collect and
17 transport stormwater runoff from streets and other sources, thereby
18 serving a combined purpose.

19 “Consumptive use” means any use of water diverted from
20 surface or ground waters other than a nonconsumptive use.

21 “Department” means the Department of Environmental
22 Protection.

23 “Diversion” or “divert” means the taking or impoundment of
24 water from a river, stream, lake, pond, aquifer, well, other
25 underground source, or other water body, whether or not the water
26 is returned thereto, consumed, made to flow into another stream or
27 basin, or discharged elsewhere.

28 “Fund” means the Water Resources Protection Trust Fund
29 established pursuant to section 4 of this act.

30 “Local government unit” means (1) a State authority, district
31 water supply commission, county, municipality, municipal, county
32 or regional utilities authority, municipal water district, joint meeting
33 or any other political subdivision of the State authorized pursuant to
34 law to operate or maintain a public water system or to construct,
35 rehabilitate, operate or maintain water supply facilities or otherwise
36 provide water for human consumption; or (2) a municipality,
37 county, or other political subdivision of the State authorized to
38 administer, protect, develop, and maintain water quality, or any
39 agency thereof, the primary purpose of which is to administer,
40 protect, develop, and maintain water quality.

41 “Nonconsumptive use” means the use of water diverted from
42 surface or ground waters in such a manner that it is returned to the
43 surface or ground water at or near the point from which it was taken
44 without substantial diminution in quantity or substantial impairment
45 of quality.

46 “Person” means any individual, corporation, company,
47 partnership, firm, association, owner, or operator of a public water

1 system, political subdivision of the State, and any state, or interstate
2 agency or Federal agency.

3 “Public community water system” means a public water system
4 which serves at least 15 service connections used by year-round
5 residents or regularly serves at least 25 year-round residents.

6 “Public water system” means a system for the provision to the
7 public of water for human consumption through pipes or other
8 constructed conveyances, if the system has at least 15 service
9 connections or regularly serves an average of at least 25 individuals
10 daily at least 60 days out of the year. “Public water system”
11 includes: (1) any collection, treatment, storage and distribution
12 facilities under control of the operator of the system and used
13 primarily in connection with the system; and (2) any collection or
14 pre-treatment storage facilities not under the control which are used
15 primarily in connection with such system.

16 “Safe or dependable yield” or “safe yield” means that
17 maintainable yield of water from a surface or ground water source
18 or sources which is available continuously during projected future
19 conditions, including a repetition of the most severe drought of
20 record, without creating undesirable effects, as determined by the
21 department.

22 “Small water company” means any company, purveyor, or entity,
23 other than a governmental agency, that provides water for human
24 consumption and which regularly serves less than 1,000 customer
25 connections, including nonprofit, noncommunity water systems
26 owned or operated by a nonprofit group or organization.

27 “Unaccounted-for water” means water withdrawn by a local
28 government unit or water purveyor from a source and not accounted
29 for as being delivered to customers in measured amounts.

30 “Wastewater” means residential, commercial, industrial, or
31 agricultural liquid waste, sewerage, or any combination thereof, or
32 other liquid residue discharged or collected into a sewer system, or
33 stormwater management system, or any combination thereof.

34 “Wastewater treatment system” means any equipment, plants,
35 structures, machinery, apparatus, or land, or any combination
36 thereof, acquired, used, constructed or operated by, or on behalf of,
37 a local government unit for the storage, collection, reduction,
38 recycling, reclamation, disposal, separation, or other treatment of
39 wastewater or sewage sludge, or for the collection or treatment, or
40 both, of stormwater runoff and wastewater, or for the final disposal
41 of residues resulting from the treatment of wastewater, including,
42 but not limited to, pumping and ventilating stations, treatment
43 plants and works, connections, outfall sewers, interceptors, trunk
44 lines, stormwater management systems, and other personal property
45 and appurtenances necessary for their use or operation. "Wastewater
46 treatment system" shall include a stormwater management system
47 or a combined sewer system.

1 “Water purveyor” means any investor-owned water company or
2 small water company that owns or operates a public water system.

3 “Water quality, supply, and infrastructure project” means any
4 project to accomplish the purposes set forth in section 6 of this act.

5 “Water supply infrastructure project” means a water supply
6 project undertaken by or on behalf of a water purveyor for the
7 purpose of drought mitigation.

8

9 4. (New section) a. There is established in the Department of
10 Environmental Protection a special non-lapsing fund to be known as
11 the “Water Resources Protection Trust Fund.” Moneys in the fund
12 shall be used for State water quality, supply, and infrastructure
13 projects and to provide grants or low-interest loans to assist local
14 government units and water purveyors in funding water quality,
15 supply, and infrastructure projects authorized pursuant to section 6
16 of this act. The fund shall be administered by the department and
17 shall be credited with all revenue collected pursuant to sections 7
18 and 8 of this act, all interest or other investment income received on
19 moneys in the fund, and all sums received as repayment of principal
20 and interest on outstanding loans made from the fund. The
21 department may use up to one percent of the total revenues
22 deposited in the fund during the fiscal year to cover administrative
23 expenses incurred in implementing the provisions of this act.

24 The department may carry forward any unexpended balances in
25 the fund as of June 30 of each year.

26 b. Unless otherwise expressly provided by the specific
27 appropriation thereof by the Legislature, which shall take the form
28 of a discrete legislative appropriations act and shall not be included
29 within the annual appropriations act, all available moneys in the
30 fund shall be appropriated annually solely for the purposes set forth
31 in section 6 of this act.

32 c. The department may make and contract to make low-interest
33 loans to local government units or water purveyors in accordance
34 with and subject to the provisions of this act to finance the cost of
35 water quality, supply, and infrastructure projects authorized
36 pursuant to section 6 of this act. The loans may be made subject to
37 those terms and conditions as the department shall determine to be
38 consistent with the purposes thereof. Each loan and the terms and
39 conditions thereof shall be subject to approval by the State
40 Treasurer, and the department shall make available to the State
41 Treasurer all information, statistical data, and reports of
42 independent consultants or experts as the State Treasurer deems
43 necessary in order to evaluate the loan.

44 d. To be eligible for a grant pursuant to this act, a local
45 government unit or water purveyor shall demonstrate the ability to
46 match the grant requested by generating funds in ratios specified by
47 the department.

1 5. (New section) a. On or before January 15 of each year,
2 the department shall submit to the Legislature a financial plan
3 designed to implement the financing of the projects on the project
4 priority list approved pursuant to section 6 of this act. The financial
5 plan shall contain an enumeration of the water quality, supply, and
6 infrastructure projects for which the department intends to provide
7 funds and the terms and conditions of any loans or grants associated
8 therewith, the anticipated rate of interest per year, and the
9 repayment schedule for any loans. The financial plan shall also set
10 forth a complete operating and financial statement covering the
11 department's proposed operations during the forthcoming fiscal
12 year, summarize the status of each project for which grants or loans
13 have been made, and describe any major impediments to the
14 accomplishment of the planned projects.

15 b. Any project funded pursuant to this act shall be eligible for
16 financing pursuant to the "New Jersey Infrastructure Trust Act,"
17 P.L.1985, c.334 (C.58:11B-1 et seq.).
18

19 6. (New section) a. Moneys in the Water Resources
20 Protection Trust Fund may be used for the following purposes:

21 (1) the costs of transferring water between public water systems
22 during a state of water emergency or to avert a drought emergency
23 in all or any part of the State;

24 (2) the protection of existing water supplies through the
25 acquisition of watershed and wetlands areas;

26 (3) the interconnection of existing water supplies, and the
27 extension of water supplies to areas with contaminated ground
28 water supplies;

29 (4) water supply infrastructure projects undertaken by water
30 purveyors for the purpose of drought mitigation;

31 (5) the costs of a safe or dependable yield analysis of the State's
32 surface and ground water sources undertaken by the department as
33 provided in section 9 of this act, up to \$100,000;

34 (6) projects to rehabilitate, repair, or replace public water
35 system infrastructure;

36 (7) grants to local government units to finance the cost of
37 developing asset management programs for public water systems;
38 and

39 (8) projects to remediate lead in drinking water infrastructure.

40 b. In addition to the projects authorized in subsection a. of this
41 section, beginning 10 years after the effective date of
42 P.L. , c. (C.) (pending before the Legislature as this bill),
43 moneys in the fund may be used for projects to rehabilitate, repair,
44 or replace wastewater treatment system infrastructure, including,
45 but not limited to, combined sewer overflow abatement projects.

46 c. Whenever any moneys in the fund are used for the protection
47 of existing water supplies through the acquisition of watershed and
48 wetlands areas as provided in paragraph (2) of subsection a. of this

1 section, the percentage of moneys used for such acquisitions in the
2 Highlands region designated pursuant to section 3 of P.L.2004,
3 c.120 (C.13:20-3) shall be an amount equivalent to not less than the
4 percentage of total revenues deposited in the fund pursuant to
5 sections 7 and 8 which were collected from user fee payers within
6 the Highlands region, and the percentage of moneys used for such
7 acquisitions in the Pinelands area designated pursuant to section 10
8 of P.L.1979, c.111 (C.13:18A-11) shall be an amount equivalent to
9 not less than the percentage of total revenues deposited in the fund
10 pursuant to sections 7 and 8 which were collected from user fee
11 payers within the Pinelands area.

12 d. On or before May 15 of each fiscal year, the department
13 shall prepare and submit to the Legislature for approval a project
14 priority list recommending the particular water quality, supply, and
15 infrastructure projects to be funded for the upcoming fiscal year.
16 The project priority list shall include a description of each project,
17 its purpose, impact, cost, and construction schedule, and an
18 explanation of the manner in which priorities were established.

19 e. No expenditure from the fund shall be made except by an
20 appropriation made pursuant to law and in accordance with the
21 project priority list developed by the department. Each such
22 appropriation act shall clearly set forth all terms and conditions
23 governing the expenditure of the appropriation, shall identify each
24 specific project or projects for which an appropriation is made, and
25 may provide such sums as may be necessary to cover the costs
26 associated with the administration thereof.

27

28 7. (New section) a. There is imposed upon the owner or
29 operator of every public community water system a water
30 consumption user fee of \$0.40 per 1,000 gallons of water delivered
31 to a consumer, not including water delivered for resale.

32 b. (1) Every person subject to the water consumption user fee
33 shall, on the effective date of this section, and quarterly thereafter,
34 render a return under oath to the Director of the Division of
35 Taxation, on such forms as may be prescribed by the director,
36 indicating the number of gallons of water delivered to a consumer,
37 and at that time shall pay the full amount due. The director may
38 prescribe a consolidated form for reporting the amount due under
39 the water consumption user fee imposed by this section and the tax
40 imposed under section 11 of P.L.1983, c.443 (C.58:12A-21).

41 (2) Every person subject to the water consumption user fee
42 shall, within 30 days after the effective date of this act, register with
43 the director on forms prescribed by the director.

44 c. If a return required by this section is not filed, or if a return
45 when filed is incorrect or insufficient in the opinion of the director,
46 the amount due shall be determined by the director from such
47 information as may be available. Notice of the determination shall
48 be given to the person subject to the water consumption user fee.

1 The determination shall finally and irrevocably fix the amount due,
2 unless the person on whom it is imposed, within 90 days after the
3 giving of the notice of the determination, shall file a protest in
4 writing as provided in R.S.54:49-18 and request a hearing, or unless
5 the director on the director's own motion shall re-determine the
6 same. After the hearing the director shall give notice of the
7 determination to the person on whom the water consumption user
8 fee is imposed.

9 d. Any person subject to the water consumption user fee who
10 fails to file a return when due or to pay the user fee when it
11 becomes due, as herein provided, shall be subject to such penalties
12 and interest as provided in the State Uniform Tax Procedure Law,
13 R.S.54:48-1 et seq. If the director determines that the failure to
14 comply with any provision of this section was excusable under the
15 circumstances, the director may remit that part or all of the penalty
16 as shall be appropriate under the circumstances.

17 e. The director shall deposit all revenues collected pursuant to
18 this section in the Water Resources Protection Trust Fund
19 established pursuant to section 4 of this act.

20 f. In addition to the other powers granted to the director in this
21 section, the director is authorized to:

22 (1) Delegate to any officer or employee of the division those
23 powers and duties as the director deems necessary to carry out
24 efficiently the provisions of this section, and the person to whom
25 the power has been delegated shall possess and may exercise all of
26 these powers and perform all of the duties delegated by the director;
27 and

28 (2) Prescribe and distribute all necessary forms for the
29 implementation of this section.

30 g. Any person subject to the water consumption user fee who is
31 subject to the jurisdiction or rate regulation of the Board of Public
32 Utilities as a public utility shall collect the water consumption user
33 fee imposed by this section by imposing an automatic surcharge on
34 any tariff established pursuant to law for water rates and charges.
35 The Board of Public Utilities shall issue an appropriate order
36 adjusting the tariffs established pursuant to law to reflect these
37 payments. In issuing any order required by this subsection, the
38 Board of Public Utilities shall be exempt from the provisions of
39 R.S.48:2-21.

40 h. Any person subject to the water consumption user fee may
41 collect the water consumption user fee imposed by this section by
42 including the amount of the user fee due as a separate line item on
43 every customer bill or other statement presented to consumers.
44 The person subject to the water consumption user fee may use up to
45 one percent of all revenues collected to defray the costs of
46 administration and collection of the water consumption user fee.
47 The director shall credit the proper amount to the person subject to
48 the water consumption user fee upon receipt of written

1 documentation of the actual costs expended for the collection of the
2 water consumption user fee.

3 i. The water consumption user fee imposed by this section
4 shall be governed in all respects by the provisions of the State
5 Uniform Tax Procedure Law, R.S.54:48-1 et seq., except only to the
6 extent that a specific provision of this section may be in conflict
7 therewith.

8 j. The water consumption user fee imposed by this section shall
9 be collected in the same manner as the tax imposed under section 11
10 of P.L.1983, c.443 (C.58:12A-21).

11 k. The water consumption user fee imposed by this section
12 shall not be imposed on:

13 (1) water delivered to a consumer for the purpose of storage for
14 future water supplies;

15 (2) water delivered to a consumer for the purpose of transferring
16 water between public water systems;

17 (3) water delivered to a consumer for emergency purposes,
18 including firefighting, flood prevention, response to a discharge of
19 hazardous substances, or for other emergency purposes as may be
20 determined by the department;

21 (4) water delivered to a consumer, including water delivered for
22 resale, or a bulk sale of water delivered to a consumer in another
23 public water system; or

24 (5) unaccounted-for water of 15 percent or less. In the case of
25 unaccounted for water greater than 15 percent, the local government
26 unit or water purveyor may petition the department for an increase
27 in the percentage of unaccounted-for water eligible for an
28 exemption pursuant to this subsection. The allowable increase in
29 the percentage of unaccounted-for water shall be determined by the
30 department based on a finding of fact that the leakage reported to
31 the department is not the result of a critically needed water supply
32 infrastructure project.

33 l. The water consumption user fee imposed by this section
34 shall not be imposed on water delivered to a consumer for purposes
35 of reducing air emissions or water pollutants necessary for
36 compliance with local, State, or federal regulations or for water
37 derived from reuse of effluent from a primary wastewater treatment
38 system, which effluent would otherwise have been discharged into
39 the waters of the State.

40 (1) Any person claiming a complete or partial exemption from
41 the water consumption user fee pursuant to this subsection shall
42 annually file with the director a written certification indicating the
43 percentage and number of gallons of water delivered to a consumer
44 for which the exemption is claimed. The director, in consultation
45 with the department, may conduct an audit of the certification. Any
46 person who files a false certification shall be subject to such
47 penalties and interest as provided in the State Uniform Tax
48 Procedure Law, R.S.54:48-1 et seq.

1 (2) The director shall authorize a refund to any person claiming
2 a complete or partial exemption from the water consumption user
3 fee who has met the requirements of this subsection. The refund
4 shall be in the amount of the percentage of the water annually
5 delivered to a consumer for which the exemption is claimed
6 multiplied by the person's total annual water consumption user fee
7 liability.

8
9 8. (New section) a. There is imposed upon every person
10 required to obtain a diversion permit issued by the department
11 pursuant to the provisions of sections 6 and 7 of P.L.1981, c.262
12 (C.58:1A-6 and C.58:1A-7), including any person who is required
13 to apply for and obtain a water use registration pursuant to rules and
14 regulations adopted by the department to administer and enforce the
15 provisions of P.L.1981, c.262 (C.58:1A-1 et seq.) or P.L.1993,
16 c.202 (C.58:1A-7.3 et al.), a water diversion user fee. The water
17 diversion user fee shall be levied at the rate of \$0.40 per 1,000
18 gallons of water diverted for a consumptive use.

19 b. (1) Every person subject to the water diversion user fee
20 shall, on the effective date of this section, and quarterly thereafter,
21 render a return under oath to the Director of the Division of
22 Taxation, on such forms as may be prescribed by the director,
23 indicating the number of gallons of water diverted, and at that time
24 shall pay the full amount due.

25 (2) Every person subject to the water diversion user fee shall,
26 within 30 days after the date of enactment of this act, register with
27 the director on forms prescribed by the director.

28 c. (1) If a return required by this section is not filed, or if a
29 return when filed is incorrect or insufficient in the opinion of the
30 director, the amount due shall be determined by the director from
31 such information as may be available. Notice of the determination
32 shall be given to the person subject to the water diversion user fee.
33 The determination shall finally and irrevocably fix the amount due,
34 unless the person on whom it is imposed, within 90 days after the
35 giving of the notice of the determination, shall file a protest in
36 writing as provided in R.S.54:49-18 and request a hearing, or unless
37 the director on the director's own motion shall redetermine the
38 amount due. After the hearing the director shall give notice of the
39 determination to the person on whom the water diversion user fee is
40 imposed.

41 (2) Any person subject to the water diversion user fee who fails
42 to file a return when due or to pay the user fee when it becomes
43 due, as herein provided, shall be subject to such penalties and
44 interest as provided in the State Uniform Tax Procedure Law,
45 R.S.54:48-1 et seq. If the director determines that the failure to
46 comply with any provision of this section was excusable under the
47 circumstances, the director may remit that part or all of the penalty
48 as shall be appropriate under the circumstances.

1 d. (1) Any person subject to the water diversion user fee who
2 is subject to the jurisdiction or rate regulation of the Board of
3 Public Utilities as a public utility shall collect the water diversion
4 user fee imposed by this section by imposing an automatic
5 surcharge on any tariff established pursuant to law for water rates
6 and charges. The Board of Public Utilities shall issue an
7 appropriate order adjusting the tariffs established pursuant to law to
8 reflect these payments. In issuing any order required by this
9 subsection, the Board of Public Utilities shall be exempt from the
10 provisions of R.S.48:2-21.

11 (2) Any person subject to the water diversion user fee may
12 collect the water diversion user fee imposed by this section by
13 including the amount of user the fee due as a separate line item on
14 every customer bill or other statement presented to consumers. The
15 person subject to the water diversion user fee may use up to one
16 percent of all revenues collected to defray the costs of
17 administration and collection of the water diversion user fee. The
18 director shall credit the proper amount to the person subject to the
19 water diversion user fee upon receipt of written documentation of
20 the actual costs expended for the collection of the water diversion
21 user fee.

22 e. The director shall deposit all revenues collected pursuant to
23 this section in the Water Resources Protection Trust Fund created
24 pursuant to section 4 of this act.

25 f. In addition to the other powers granted to the director in this
26 section, the director is authorized to:

27 (1) Delegate to any officer or employee of the division those
28 powers and duties as the director deems necessary to carry out
29 efficiently the provisions of this section, and the person to whom
30 the power has been delegated shall possess and may exercise all of
31 these powers and perform all of the duties delegated by the director;
32 and

33 (2) Prescribe and distribute all necessary forms for the
34 implementation of this section.

35 g. The water diversion user fee imposed by this section shall be
36 governed in all respects by the provisions of the State Uniform Tax
37 Procedure Law, R.S.54:48-1 et seq., except only to the extent that a
38 specific provision of this section may be in conflict therewith.

39 h. The water diversion user fee imposed by this section shall
40 not be imposed on:

41 (1) water diverted for agricultural or horticultural purposes
42 under a water usage certification required pursuant to the provisions
43 of section 6 of P.L.1981, c.262 (C.58:1A-6) or as provided in
44 section 2 of P.L.1981, c.277 (C.58:1A-7.2);

45 (2) water diverted for a nonconsumptive use. In the case of
46 those permittees or persons with diversion privileges to divert water
47 for both a consumptive use and a nonconsumptive use, the
48 calculation of the amount of water diverted for nonconsumptive use

1 shall be determined by the department based on water use as
2 reported to the department pursuant to P.L.1981, c.262 (C.58:1A-1
3 et seq.) or P.L.1993, c.202 (C.58:1A-7.3 et al.), or if not reported,
4 based on standard industry water use profiles;

5 (3) surface water diverted by permittees or persons required to
6 apply for and obtain a water use registration in such a manner that it
7 is returned to another surface water body;

8 (4) water diverted for the remediation of areas with
9 contaminated ground water supplies, or for other remedial actions
10 as provided by law;

11 (5) water diverted for emergency purposes, including
12 firefighting, flood prevention, response to a discharge of hazardous
13 substances, or for other emergency purposes as may be determined
14 by the department;

15 (6) diversions of salt water except whenever the department
16 determines that the diversion and resultant usage may affect
17 utilization of fresh water;

18 (7) water diverted for a paper manufacturing process utilizing
19 post-consumer waste material in the manufacture of a recycled
20 product which constitutes at least 75 percent of total annual sales
21 dollar volume of the products manufactured in the State by that
22 manufacturer as determined by the director;

23 (8) water subject to the water consumption user fee imposed by
24 section 7 of this act;

25 (9) diversions of saline water except whenever the department
26 determines that the diversion and resultant usage may affect
27 utilization of fresh water;

28 (10) water diverted for purposes of reducing air emissions or
29 water pollutants necessary for compliance with local, State or
30 federal regulations;

31 (11) water diverted for the purpose of transferring water
32 between public water systems; or

33 (12) water diverted for resale, or a bulk sale of water diverted to
34 another public water system.

35 For the purposes of this subsection, "salt water" means water
36 containing a chloride concentration in excess of 10,000 mg/L;
37 "post-consumer waste material" means a material or product that
38 would otherwise become solid waste, having completed its intended
39 end use and product life cycle, except that "post-consumer waste
40 material" shall not include secondary waste material or materials
41 and by-products generated from, and commonly used within, an
42 original manufacturing and fabrication process; "recycled product"
43 means any product or commodity which is manufactured or
44 produced in whole or in part from post-consumer waste material
45 and which meets the recycled content standard of the United States
46 Environmental Protection Agency as published in the
47 Comprehensive Procurement Guidelines for Products Containing
48 Recovered Material; "secondary waste material" means waste

1 material generated after the completion of a manufacturing process;
2 “solid waste” means the same as that term is defined in section 3 of
3 P.L.1970, c.39 (C.13:1E-3); and “saline water” means water
4 containing a chloride concentration in excess of 250 mg/L.

5 i. Any person subject to the water diversion user fee shall be
6 eligible for water conservation credits against the water diversion
7 user fee. Water conservation credits shall be granted to any
8 permittee or person required to apply for and obtain a water use
9 registration who can demonstrate a net reduction in annual water
10 use over any 10-year period commencing January 1, 2019. The
11 water conservation credits shall be equal to 50 percent of the
12 difference between the maximum year withdrawal during this
13 period and the current year, where the reduction can be documented
14 as attributable to water conservation. The department shall approve
15 the diversion permit or water use registration modification to reflect
16 the water conservation credits granted.

17
18 9. (New section) The department shall undertake a safe or
19 dependable yield analysis of the State's surface and ground water
20 sources to ascertain what actions may be required to maintain safe
21 yield. The department shall include the results of the safe or
22 dependable yield analysis in revisions and updates of the New
23 Jersey Statewide Water Supply Plan prepared pursuant to section 13
24 of P.L.1981, c.262 (C.58:1A-13).

25
26 10. (New section) a. The department shall adopt, pursuant
27 to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-
28 1 et seq.), rules and regulations as are necessary to effectuate the
29 purposes of this act.

30 b. The Director of the Division of Taxation in the Department
31 of the Treasury, in consultation with the department, and pursuant
32 to the "Administrative Procedure Act," shall adopt rules and
33 regulations as are necessary to effectuate the provisions of sections
34 7 and 8 of this act.

35
36 11. Section 3 of P.L.1985, c.334 (C.58:11B-3) is amended to
37 read as follows:

38 3. As used in sections 1 through 27 of P.L.1985, c.334
39 (C.58:11B-1 through C.58:11B-27), sections 23 through 27 of
40 P.L.1997, c.224 (C.58:11B-10.1 et al.), and sections 22 and 34
41 through 38 of P.L.2016, c.56 (C.58:11B-10.3 through C.58:11B-
42 10.5, C.58:11B-20.2, C.58:11B-22.3, and C.58:11B-22.4):

43 "Bonds" means bonds issued by the trust pursuant to P.L.1985,
44 c.334 (C.58:11B-1 et seq.) or P.L.1997, c.224 (C.58:11B-
45 10.1 et al.);

46 "Combined sewer overflow" means the discharge of untreated or
47 partially treated stormwater runoff and wastewater from a combined
48 sewer system into a body of water;

1 "Combined sewer system" means a sewer system designed to
2 carry sanitary wastewater at all times, which is also designed to
3 collect and transport stormwater runoff from streets and other
4 sources, thereby serving a combined purpose;

5 "Commissioner" means the Commissioner of the Department of
6 Environmental Protection;

7 "Cost" means the cost of all labor, materials, machinery and
8 equipment, lands, property, rights and easements, financing
9 charges, interest on bonds, notes or other obligations, plans and
10 specifications, surveys or estimates of costs and revenues,
11 engineering and legal services, and all other expenses necessary or
12 incident to all or part of an environmental infrastructure project;

13 "Department" means the Department of Environmental
14 Protection;

15 "Environmental infrastructure project" means the acquisition,
16 construction, improvement, repair or reconstruction of all or part of
17 any structure, facility or equipment, or real or personal property
18 necessary for or ancillary to any: (1) wastewater treatment system
19 project, including any stormwater management or combined sewer
20 overflow abatement projects; or (2) water supply project, as
21 authorized pursuant to P.L.1985, c.334 (C.58:11B-1 et seq.) or
22 P.L.1997, c.224 (C.58:11B-10.1 et al.), including any water
23 resources project, as authorized pursuant to P.L.2003, c.162;

24 "Federal infrastructure bank program" means the United States
25 Department of Transportation State Infrastructure Bank Program
26 provided for in section 350 of Pub.L.104-59 and Pub.L.102-240 as
27 amended or superseded;

28 "Local government unit" means (1) a State authority, county,
29 municipality, municipal, county or regional sewerage or utility
30 authority, municipal sewerage district, joint meeting, improvement
31 authority, or any other political subdivision of the State authorized
32 to construct, operate, and maintain wastewater treatment systems;
33 (2) a State authority, district water supply commission, county,
34 municipality, municipal, county or regional utilities authority,
35 municipal water district, joint meeting, or any other political
36 subdivision of the State authorized pursuant to law to operate or
37 maintain a public water supply system or to construct, rehabilitate,
38 operate, or maintain water supply facilities or otherwise provide
39 water for human consumption; or (3) a county, municipality,
40 municipal, county or regional transportation authority, or any other
41 political subdivision of the State authorized to construct, operate,
42 and maintain public highways or transportation projects as defined
43 pursuant to this section;

44 "New Jersey Environmental Infrastructure Financing Program"
45 means the financing program to fund environmental infrastructure
46 projects;

1 "New Jersey Transportation Infrastructure Financing Program"
2 means the financing program to fund transportation infrastructure
3 projects;

4 "Notes" means notes issued by the trust pursuant to P.L.1985,
5 c.334 (C.58:11B-1 et seq.), P.L.1997, c.224 (C.58:11B-10.1 et al.),
6 or sections 22 and 34 through 38 of P.L.2016, c.56 (C.58:11B-10.3
7 through C.58:11B-10.5, C.58:11B-20.2, C.58:11B-22.3, and
8 C.58:11B-22.4);

9 "Onsite septic system ordinance or regulation" means an
10 ordinance adopted by a municipality or county or regulation
11 adopted by a regional planning agency establishing the
12 requirements for construction, maintenance and repair of onsite
13 wastewater treatment and disposal systems;

14 "Onsite wastewater treatment and disposal system" means an on-
15 site system designed to treat and dispose of domestic sewage;

16 "Other assistance" means forms of financial assistance, in
17 addition to loans, authorized by the New Jersey Infrastructure Bank
18 from the State Transportation Infrastructure Bank Fund, including,
19 but not limited to, use of funds to: provide credit enhancements;
20 serve as a capital reserve for bond or other debt instrument
21 financing; subsidize interest rates; ensure the issuance of letters of
22 credit and credit instruments; finance purchase and lease
23 agreements with respect to transit projects; and provide bond or
24 other debt financing instrument security;

25 "Project" means the acquisition, construction, improvement,
26 repair or reconstruction of all or part of any structure, facility, or
27 equipment, or real or personal property necessary for or ancillary to
28 any: (1) wastewater treatment system project, including any
29 stormwater management or combined sewer overflow abatement
30 projects; (2) water supply project, as authorized pursuant to
31 P.L.1985, c.334 (C.58:11B-1 et seq.) or P.L.1997, c.224 (C.58:11B-
32 10.1 et al.), including any water resources project, as authorized
33 pursuant to P.L.2003, c.162; or (3) transportation project authorized
34 pursuant to sections 22 and 34 through 38 of P.L.2016, c.56
35 (C.58:11B-10.3 through C.58:11B-10.5, C.58:11B-20.2, C.58:11B-
36 22.3, and C.58:11B-22.4);

37 "Public highway" means public roads, streets, expressways,
38 freeways, parkways, motorways and boulevards, including bridges,
39 tunnels, overpasses, underpasses, interchanges, express bus
40 roadways, bus pullouts and turnarounds, park-ride facilities, traffic
41 circles, grade separations, traffic control devices, the elimination or
42 improvement of crossings of railroads and highways, whether at-
43 grade or not at-grade, bicycle and pedestrian pathways and
44 pedestrian and bicycle bridges, and any property, rights of way,
45 easements and interests therein needed for the construction,
46 improvement, and maintenance of highways;

47 "Public water utility" means any investor-owned water company
48 or small water company;

1 "Small water company" means any company, purveyor or entity,
2 other than a governmental agency, that provides water for human
3 consumption and which regularly serves less than 1,000 customer
4 connections, including nonprofit, noncommunity water systems
5 owned or operated by a nonprofit group or organization;

6 "Stormwater management system" means any equipment, plants,
7 structures, machinery, apparatus, management practices, or land, or
8 any combination thereof, acquired, used, constructed, implemented
9 or operated to prevent nonpoint source pollution, abate improper
10 cross-connections and interconnections between stormwater and
11 sewer systems, minimize stormwater runoff, reduce soil erosion, or
12 induce groundwater recharge, or any combination thereof;

13 "Transportation project" means capital projects for public
14 highways, approach roadways and other necessary land-side
15 improvements, ramps, signal systems, roadbeds, transit lanes or
16 rights of way, pedestrian walkways and bridges connecting to
17 passenger stations and servicing facilities, bridges, and grade
18 crossings;

19 "Trust" means the New Jersey Infrastructure Bank created
20 pursuant to section 4 of P.L.1985, c.334 (C.58:11B-4);

21 "Wastewater" means residential, commercial, industrial, or
22 agricultural liquid waste, sewage, septage, stormwater runoff, or
23 any combination thereof, or other liquid residue discharged or
24 collected into a sewer system or stormwater management system, or
25 any combination thereof;

26 "Wastewater treatment system" means any equipment, plants,
27 structures, machinery, apparatus, or land, or any combination
28 thereof, acquired, used, constructed or operated by, or on behalf of,
29 a local government unit for the storage, collection, reduction,
30 recycling, reclamation, disposal, separation, or other treatment of
31 wastewater or sewage sludge, or for the collection or treatment, or
32 both, of stormwater runoff and wastewater, or for the final disposal
33 of residues resulting from the treatment of wastewater, including,
34 but not limited to, pumping and ventilating stations, treatment
35 plants and works, connections, outfall sewers, interceptors, trunk
36 lines, stormwater management systems, and other personal property
37 and appurtenances necessary for their use or operation; "wastewater
38 treatment system" shall include a stormwater management system
39 or a combined sewer system;

40 "Wastewater treatment system project" means any work relating
41 to the acquisition, construction, improvement, repair or
42 reconstruction of all or part of any structure, facility or equipment,
43 or real or personal property necessary for or ancillary to any
44 wastewater treatment system that meets the requirements set forth
45 in sections 20, 21, and 22 of P.L.1985, c.334 (C.58:11B-20,
46 C.58:11B-21, and C.58:11B-22); or any work relating to any of the
47 stormwater management or combined sewer overflow abatement
48 projects identified in the stormwater management and combined

1 sewer overflow abatement project priority list adopted by the
2 commissioner pursuant to section 28 of P.L.1989, c.181; or any
3 work relating to the purposes set forth in subsection b. of section 6
4 of P.L. , c. (C.)(pending before the Legislature as this bill);
5 or any work relating to the purposes set forth in section 6 of
6 P.L.2003, c.162; or any work relating to any other project eligible
7 for financing under the "Federal Water Pollution Control Act
8 Amendments of 1972" (33 U.S.C. s.1251 et seq.), or any
9 amendatory or supplementary acts thereto;

10 "Water resources project" means any work related to transferring
11 water between public water systems during a state of water
12 emergency, to avert a drought emergency in all or any part of the
13 State, to plan, design or construct interconnections of existing water
14 supplies, or to extend water supplies to areas with contaminated
15 ground water supplies , including any work relating to the
16 appropriate purposes set forth in subsection a. of section 6 of
17 P.L. , c. (C.)(pending before the Legislature as this bill);

18 "Water supply facilities" means and refers to the real property
19 and the plants, structures, interconnections between existing water
20 supply facilities, machinery and equipment and other property, real,
21 personal and mixed, acquired, constructed or operated, or to be
22 acquired, constructed or operated, in whole or in part, by or on
23 behalf of a public water utility, or by or on behalf of the State or a
24 local government unit, for the purpose of augmenting the natural
25 water resources of the State and making available an increased
26 supply of water for all uses, or of conserving existing water
27 resources, and any and all appurtenances necessary, useful or
28 convenient for the collecting, impounding, storing, improving,
29 treating, filtering, conserving or transmitting of water, and for the
30 preservation and protection of these resources and facilities,
31 whether in public or private ownership, and providing for the
32 conservation and development of future water supply resources, and
33 facilitating incidental recreational uses thereof;

34 "Water supply project" means any work relating to the
35 acquisition, construction, improvement, repair or reconstruction of
36 all or part of any structure, facility or equipment, or real or personal
37 property necessary for or ancillary to water supply facilities that
38 meets the requirements set forth in sections 24, 25, and 26 of
39 P.L.1997, c.224 (C.58:11B-20.1, C.58:11B-21.1, and C.58:11B-
40 22.1); or any work relating to the purposes set forth in section 4 of
41 P.L.1981, c.261; or any work relating to the purposes set forth in
42 section 6 of P.L.2003, c.162; or any work relating to the appropriate
43 purposes set forth in subsection a. of section 6 of P.L. , c. (C.
44)(pending before the Legislature as this bill) or any work relating to
45 any other project eligible for funding pursuant to the federal "Safe
46 Drinking Water Act Amendments of 1996," Pub.L.104-182, and any
47 amendatory and supplementary acts thereto.

48 (cf: P.L.2017, c.144, s.1)

STATEMENT

(3) surface water diverted by permittees or persons required to apply for and obtain a water use registration in such a manner that it is returned to another surface water body;

- 1 (4) water diverted for the remediation of areas with
2 contaminated ground water supplies, or for other remedial actions
3 as provided by law;
 - 4 (5) water diverted for emergency purposes, including
5 firefighting, flood prevention, response to a discharge of hazardous
6 substances, or for other emergency purposes as may be determined
7 by the DEP;
 - 8 (6) diversions of salt water except whenever the DEP
9 determines that the diversion and resultant usage may affect
10 utilization of fresh water;
 - 11 (7) water diverted for a paper manufacturing process utilizing
12 post-consumer waste material in the manufacture of a recycled
13 product which constitutes at least 75 percent of total annual sales
14 dollar volume of the products manufactured in the State by that
15 manufacturer as determined by the Director of the Division of
16 Taxation;
 - 17 (8) water subject to the water consumption user fee;
 - 18 (9) diversions of saline water except whenever the DEP
19 determines that the diversion and resultant usage may affect
20 utilization of fresh water;
 - 21 (10) water diverted for purposes of reducing air emissions or
22 water pollutants necessary for compliance with local, State or
23 federal regulations;
 - 24 (11) water diverted for the purpose of transferring water
25 between public water systems; and
 - 26 (12) water diverted for resale, or a bulk sale of water diverted to
27 another public water system.
- 28 Any person subject to the water diversion user fee would be
29 eligible for water conservation credits against the water diversion
30 user fee. Water conservation credits would be granted to any
31 permittee or person required to apply for and obtain a water use
32 registration who can demonstrate a net reduction in annual water
33 use over any 10-year period commencing January 1, 2019. The
34 water conservation credits would be equal to 50 percent of the
35 difference between the maximum year withdrawal during this
36 period and the current year, where the reduction can be documented
37 as attributable to water conservation. The DEP would approve the
38 diversion permit or water use registration modification to reflect the
39 water conservation credits granted.
- 40 The fund would be administered by the DEP and would be
41 credited with all water consumption user fee and water diversion
42 user fee revenue collected under sections 7 and 8 of the bill, all
43 interest and other investment income received on moneys in the
44 fund, and all sums received as repayment of principal and interest
45 on outstanding loans made from the fund. The DEP would be
46 authorized to use not more than one percent of the total revenues
47 deposited in the fund during the fiscal year to cover administrative
48 expenses incurred in implementing the provisions of the bill.

1 The moneys in the fund may be used for the following water
2 quality, supply, and infrastructure projects:

3 (1) the costs of transferring water between public water systems
4 during a state of water emergency or to avert a drought emergency
5 in all or any part of the State;

6 (2) the protection of existing water supplies through the
7 acquisition of watershed and wetlands areas;

8 (3) the interconnection of existing water supplies, and the
9 extension of water supplies to areas with contaminated ground
10 water supplies;

11 (4) the costs of water supply infrastructure projects undertaken
12 by water purveyors for the purpose of drought mitigation;

13 (5) the costs of a safe or dependable yield analysis of the State's
14 surface and ground water resources undertaken by the DEP, up to
15 \$100,000;

16 (6) projects to rehabilitate, repair, or replace public water
17 system infrastructure;

18 (7) grants to local government units to finance the cost of
19 developing asset management programs for public water systems;
20 and

21 (8) projects to remediate lead in drinking water infrastructure.

22 In addition, beginning 10 years after the effective date of the bill,
23 the money in the fund may be used for projects to rehabilitate,
24 repair, or replace wastewater treatment system infrastructure,
25 including, but not limited to, combined sewer overflow abatement
26 projects.

27 Whenever any moneys in the fund are used for the protection of
28 existing water supplies through the acquisition of watershed and
29 wetlands areas, the percentage of moneys used for such acquisitions
30 in the Highlands region would be an amount equivalent to not less
31 than the percentage of total revenues deposited in the fund which
32 were collected from user fee payers within the Highlands region,
33 and the percentage of moneys used for such acquisitions in the
34 Pinelands area would be an amount equivalent to not less than the
35 percentage of total revenues deposited in the fund which were
36 collected from user fee payers within the Pinelands area.

37 The DEP would be authorized to make low-interest loans to local
38 governments and water purveyors to finance the cost of authorized
39 water quality, supply, and infrastructure projects. To be eligible for
40 a grant, a local government or water purveyor would be required to
41 demonstrate the ability to match the grant requested by generating
42 funds in ratios specified by the DEP.

43 On or before January 15 of each year, the DEP would submit to
44 the Legislature a financial plan designed to implement the financing
45 of the projects on the project priority list submitted to the
46 Legislature for approval by May 15 of that year. The financial plan
47 would contain an enumeration of the projects for which the DEP
48 intends to provide funds and the terms and conditions of any loans

1 or grants associated therewith, the anticipated rate of interest per
2 year and repayment schedule for any loans. The financial plan
3 would also set forth a complete operating and financial statement
4 covering its proposed operations during the forthcoming fiscal year,
5 summarize the status of each project for which grants or loans have
6 been made, and describe any major impediments to the
7 accomplishment of the planned projects.

8 On or before May 15 of each fiscal year, the DEP would prepare
9 and submit to the Legislature for approval a project priority list
10 recommending the particular water quality, supply, and
11 infrastructure projects to be funded for the upcoming fiscal year.
12 The project priority list would include a description of each project,
13 its purpose, impact, cost, and construction schedule, and an
14 explanation of the manner in which priorities were established.

15 The bill provides that no expenditure from the fund would be
16 made except by an appropriation made pursuant to law and in
17 accordance with the project priority list developed by the DEP.
18 Each such appropriation act would clearly set forth all terms and
19 conditions governing the expenditure of the appropriation, would
20 identify each specific project or projects for which an appropriation
21 is made, and may provide such sums as may be necessary to cover
22 the costs associated with the administration thereof.

23 The bill requires the DEP to undertake a safe or dependable yield
24 analysis of the State's surface and ground water sources to ascertain
25 what actions may be required to maintain safe yield, and to include
26 the results of the analysis in revisions and updates of the New
27 Jersey Statewide Water Supply Plan.
