

LEGISLATIVE FISCAL ESTIMATE
SENATE, No. 692
STATE OF NEW JERSEY
219th LEGISLATURE

DATED: FEBRUARY 5, 2020

SUMMARY

Synopsis: Requires school districts to provide feminine hygiene products in certain public schools and requires State to pay costs.

Type of Impact: Annual State expenditure increase.
Annual school district expenditure and revenue increases.

Agencies Affected: Department of Education.
Certain School Districts.

Office of Legislative Services Estimate

Fiscal Impact	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>
State Cost Increase	\$450,000 - \$900,000	\$150,000 - \$300,000	\$150,000 - \$300,000
Local Cost Increase	\$450,000 - \$900,000	\$150,000 - \$300,000	\$150,000 - \$300,000
Local Revenue Increase	\$450,000 - \$900,000	\$150,000 - \$300,000	\$150,000 - \$300,000

- The Office of Legislative Services (OLS) estimates that the bill would lead to a \$450,000 to \$900,000 increase in State expenditures in the first full school year following enactment and a \$150,000 to \$300,000 increase in State expenditures in each subsequent year. The expenditures would first be incurred by school districts and then reimbursed by the State. The greater costs in the first year reflect the initial purchase of feminine hygiene product dispensers.
- Based on data from the 2017-2018 school year, under the bill, approximately 614 schools across the State would be required to provide free feminine hygiene products in at least 50 percent of the school bathrooms. Total enrollment of students in grades 6 through 12 in these schools approximated 272,000.

BILL DESCRIPTION

The bill requires certain school districts to provide feminine hygiene products free of charge in at least 50 percent of the bathrooms of certain schools beginning in the first full school year following the bill’s date of enactment. The requirement applies to schools educating students in grades 6 through 12, or any combination thereof, in which at least 40 percent of the students reside

in households with incomes not exceeding 185 percent of the most recent federal poverty guidelines. Related school district expenditures will be reimbursed by the State.

FISCAL ANALYSIS

EXECUTIVE BRANCH

None received.

OFFICE OF LEGISLATIVE SERVICES

The OLS estimates that the bill would lead to a \$450,000 to \$900,000 increase in State expenditures in the first full school year following enactment and a \$150,000 to \$300,000 increase in State expenditures in each subsequent year. The expenditures would first be incurred by school districts and then reimbursed by the State.

The OLS bases its estimate on information submitted by the Desert Sands Unified School District to the California Commission on State Mandates as part of the district's challenge of a similar bill enacted in California. The filing included a detailed breakdown of the expenditures the school district incurred to comply with the new law. Excluding the labor costs associated with training staff and restocking feminine hygiene product dispensers, these costs approximated \$1.60 per pupil in the first year and \$0.51 per pupil in the subsequent year. The greater costs in the first year reflect the initial purchase of feminine hygiene product dispensers.

Based on data from the 2017-2018 school year, under the bill, approximately 614 schools across New Jersey would be required to provide free feminine hygiene products in at least 50 percent of the school bathrooms. Total enrollment of students in grades 6 through 12 in these schools approximated 272,000. Applying the per-pupil costs calculated under the California bill, the OLS estimates costs to range from \$450,000 to \$900,000 in the first year and from \$150,000 to \$300,000 in each subsequent year. The range reflects uncertainty regarding the future consumption of free feminine hygiene products in affected schools.
