CURRENT VERSION OF TEXT

As reported by the Assembly Budget Committee on September 21, 2020, with amendments.

(Sponsorship Updated As Of: 9/24/2020)

1 AN ACT concerning single-use plastic carryout bags, single-use
2 paper carryout bags, polystyrene foam food service products, and
3 single-use plastic straws, supplementing Title 13 of the Revised
4 Statutes, and amending P.L.2002, c.128.

5
6 **BE IT ENACTED** by the Senate and General Assembly of the State
7 of New Jersey:

8
9 1. (New section) The Legislature finds and declares that, since
10 1950, global annual production of plastics has increased from two
11 million tons to over 381 million tons; that approximately one third of
12 all plastics produced are single-use plastics, which are plastics
13 designed to be used only once and then thrown away; and that an
14 estimated 100 billion single-use plastic carryout bags and 25 billion
15 styrofoam plastic coffee cups are thrown away in the United States
16 each year.

17 The Legislature further finds that, in 2017, only 8.4 percent of
18 plastics in the United States were recycled; that most single-use
19 plastics are disposed of in landfills, are incinerated, or become litter in
20 waterways and oceans; that plastics released in the environment do not
21 biodegrade, but instead break down into smaller pieces, known as
22 microplastics, which accumulate in the natural environment and are
23 eaten by fish and other marine life; and that microplastic pollution
24 moves through natural food webs and accumulates in fish and shellfish
25 tissues, which means microplastics and associated pollutants can move
26 into the food chain.

27 The Legislature further finds that approximately eight million tons
28 of plastic end up in the oceans annually; that, without action, scientists
29 estimate that by 2050 the mass of plastic pollution in the ocean will
30 exceed the mass of fish; that currently, there is a collection of litter in
31 the North ³**【Atlantic】** Pacific³ Ocean, known as the Great Pacific
32 Garbage Patch, that is 7.7 million square miles and is composed
33 primarily of plastics; that one study found plastics in the gut of every
34 sea turtle examined and in 90 percent of seabirds examined; and that
35 plastics have been known to cause death or reproductive failure in sea
36 turtles, birds, and other organisms that ingest plastic.

37 The Legislature further finds that, as plastics break down through
38 photodegradation, they release harmful chemicals such as bisphenol A
39 (BPA) into the environment that have been linked to health problems
40 in humans; that these chemicals enter the food chain when consumed
41 by marine life; and that single-use plastic waste creates visual
42 pollution, degrades water quality, and impacts the tourism, fishing, and
43 shipping industries, all of which are major contributors to the New
44 Jersey economy.

EXPLANATION – Matter enclosed in bold-faced brackets **【thus】** in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

Matter enclosed in superscript numerals has been adopted as follows:

¹Senate SEN committee amendments adopted January 30, 2020.

²Senate floor amendments adopted February 10, 2020.

³Assembly AAP committee amendments adopted September 17, 2020.

⁴Assembly ABU committee amendments adopted September 21, 2020.

1 The Legislature therefore determines that it is no longer
2 conscionable to permit the unfettered use and disposal of single-use
3 plastics in the State; that New Jersey must do its part to minimize
4 plastic pollution in the ocean, and to ensure that future generations
5 have a clean and healthy environment to live, work, and recreate in;
6 that banning or limiting the use of single-use plastic carryout bags,
7 polystyrene foam food service products, and single-use plastic straws
8 is a significant step in this effort, as these items are among the most
9 significant sources of beach and ocean pollution; that New Jersey joins
10 several other states and hundreds of municipalities across the country
11 in banning or limiting the use of single-use plastics; and that such bans
12 and limitations have drastically lowered consumer consumption of
13 single-use plastics.

14 The Legislature further finds that single-use paper carryout bags
15 use as much or more energy and resources to manufacture and
16 transport than single-use plastic carryout bags and contribute to
17 harmful air emissions. Consequently, the Legislature further
18 determines that it is in the public interest to prohibit grocery stores
19 from providing single-use paper carryout bags.

20 ³The Legislature further finds that the State's nascent hemp-
21 growing industry, regulated through the New Jersey Department of
22 Agriculture's Division of Plant Industry, would be a significant force
23 in creating biodegradable raw materials that can be turned into hemp-
24 based bio-packaging, which breaks down in approximately 90 days
25 versus the dozens of years it takes petroleum-based plastics to break
26 down into microplastics in the ocean.³

27

14 amount of plastic entering the environment; the technological
15 feasibility of increasing recycled content of consumer plastics and
16 expanding the types of plastics that may be manufactured from
17 recycled material; and ways to enhance the development and
18 expansion of markets of post-consumer recycled plastic, including
19 State and local purchasing and procurement practices.

25 Committee and the Assembly Environment and Solid Waste
26 Committee, or their successors. The written report shall summarize
27 the analysis conducted pursuant to paragraph (1) of this subsection and

38 P.L. , c. (C.) (pending before the Legislature as this bill),
39 including, but not limited to, developing and publishing on its
40 Internet website guidance on compliance with the act, and
41 establishing an online clearinghouse of vendors who provide
42 environmentally sound alternatives to single-use plastic carryout
43 bags, single-use paper carryout bags, polystyrene foam food service
44 products, and single-use plastic straws; and

45 b. the organization under contract with the Department of
46 Environmental Protection pursuant to section 6 of P.L.2002, c.128
47 (C.13:1E-218) shall, in cooperation with local governments and the
48 business community, develop and implement a Statewide public

1 information and education program concerning the provisions of
2 P.L. , c. (C.)(pending before the Legislature as this bill).

11 Legislature as this bill).

12
13 10. Section 5 of P.L.2002, c.128 (C.13:1E-217) is amended to
14 read as follows:

15 5. The Clean Communities Program Fund is established as a
16 nonlapsing, revolving fund in the Department of the Treasury. The
17 Clean Communities Program Fund shall be administered by the
18 Department of Environmental Protection and credited, in addition to
19 any appropriations made thereto, with all user fees imposed
20 pursuant to section 4 of P.L.2002, c.128 (C.13:1E-216) or penalties
21 imposed pursuant to section 10 of P.L.2002, c.128 (C.13:1E-222),
22 and any sums received as voluntary contributions from private
23 sources. Interest received on moneys in the Clean Communities
24 Program Fund shall be credited to the fund. Unless otherwise
25 expressly provided by the specific appropriation thereof by the
26 Legislature, which shall take the form of a discrete legislative
27 appropriations act and shall not be included within the annual
28 appropriations act, all available moneys in the Clean Communities
29 Program Fund shall be appropriated annually solely for the
30 following purposes and no others:

31 a. 10 **[%]** percent of the estimated annual balance of the Clean
32 Communities Program Fund shall be used for a State program of
33 litter pickup and removal and of enforcement of litter-related laws
34 and ordinances in State owned places and areas that are accessible
35 to the public. Moneys in the fund may also be used by the State to
36 abate graffiti;

37 b. 50 **[%]** percent of the estimated annual balance of the Clean
38 Communities Program Fund shall be distributed as State aid to
39 eligible municipalities with total housing units of 200 or more for
40 programs of litter pickup and removal, including establishing an
41 "Adopt-A-Highway" program, of public education and information
42 relating to litter abatement and of enforcement of litter-related laws
43 and ordinances. The amount of State aid due each municipality
44 shall be solely calculated based on the proportion which the housing
45 units of a qualifying municipality bear to the total housing units in
46 the State. Total housing units shall be determined using the most
47 recent federal decennial population estimates for New Jersey and its

1 municipalities, filed in the office of the Secretary of State. Moneys
2 in the fund may also be used by an eligible municipality to abate
3 graffiti;

4 c. 30 **[%]** percent of the estimated annual balance of the Clean
5 Communities Program Fund shall be distributed as State aid to
6 eligible municipalities with total housing units of 200 or more for
7 programs of litter pickup and removal, including establishing an
8 "Adopt-A-Highway" program, of public education and information
9 relating to litter abatement and of enforcement of litter-related laws
10 and ordinances. The amount of State aid due each municipality
11 shall be solely calculated based on the proportion which the
12 municipal road mileage of a qualifying municipality bears to the
13 total municipal road mileage within the State. For the purposes of
14 this subsection, "municipal road mileage" means that road mileage
15 under the jurisdiction of municipalities, as determined by the
16 Department of Transportation. Moneys in the fund may also be
17 used by an eligible municipality to abate graffiti;

18 d. 10 **[%]** percent of the estimated annual balance of the Clean
19 Communities Program Fund shall be distributed as State aid to
20 eligible counties for programs of litter pickup and removal,
21 including establishing an "Adopt-A-Highway" program, of public
22 education and information relating to litter abatement and of
23 enforcement of litter-related laws and ordinances. The amount of
24 State aid due each county shall be solely calculated based on the
