STATEMENT

This bill allows a New Jersey gross income tax deduction for charitable contributions that are made to certain New Jersey-based charitable organizations during the COVID-19 pandemic to encourage philanthropic giving to Garden State charities.

Under this bill, New Jersey gross income taxpayers are allowed to deduct from gross income charitable contributions that are made during the taxable year during the COVID-19 pandemic to a qualified New Jersey-based charitable organization. The bill provides that the amount of the deduction is limited to $20,000 for joint filers and head of households and $10,000 for single filers, married taxpayers filing separately, or surviving spouses.
The bill defines “exclusion period” as the time when the Governor issued Executive Order No. 103 of 2020 declaring a public health emergency for the COVID-19 pandemic (March 9th, 2020) until there is no longer a public health emergency. The bill defines “qualified New Jersey-based charitable organization” as a charitable organization that is registered pursuant to the “Charitable Registration and Investigation Act,” or an organization that is exempt from the registration requirements of that act, and maintains an office, employs persons, and provides services in this State.

This bill takes effect immediately upon enactment and applies to charitable contributions that are made during the exclusion period.
