

# LEGISLATIVE FISCAL ESTIMATE TO

[First Reprint]  
**ASSEMBLY, No. 1139**

## **STATE OF NEW JERSEY**

DATED: JUNE 25, 1996

Assembly Bill No. 1139 (1R) of 1996 permits the Director of the Division of Motor Vehicles (DMV) to issue special "Conquer Cancer" license plates. The director would be authorized to charge an initial application fee of \$50 and a \$10 renewal fee which shall be in addition to all fees otherwise prescribed by law. After reimbursing DMV for expenses associated with plate issuance, the remaining application and renewal fee revenues would be deposited into the Cancer Research Fund, established in the Department of Health pursuant to section 5 of P.L.1982, c.40 (C.54:40A-37.1). In turn, the monies in the fund would be used by the New Jersey State Commission on Cancer Research for approved research projects as defined in section 3 of P.L.1983, c.6 (C.52:9U-3).

In estimates for previous bills authorizing the issuance of special license plates, DMV estimated total fixed costs to be about \$41,000, for reprogramming agency and revenue automated systems, and for one-time die costs. Variable costs would be about \$8 for the issuance of each set of special plates. However, since DMV is generally unable to estimate public interest in new, special license plates, it does not project revenues.

The Office of Legislative Services (OLS) concurs with previous DMV cost estimates for the issuance of new, special license plates. However, as a possible reference range for potential revenues, OLS would note that DMV has estimated that FY 1996 revenues from special plates for animal welfare would provide about \$433,000, plates for wildlife conservation would provide about \$236,000, and plates for shore conservation would provide about \$899,000.

The legislative fiscal estimate has been produced by the Office of Legislative Services due to the failure of the Executive Branch to respond to our request for a fiscal note.

This fiscal estimate has been prepared pursuant to P.L.1980, c.67.
