19 of P.L.1991, c.184 (C.54:30A-61.4), the payments to municipalities from the proceeds of the  
20 public utilities franchise and gross receipts taxes during fiscal year 1996 shall be \$685,000,000  
21 and shall be distributed in the same amounts to the same municipalities as received such payments  
22 in calendar year 1994 pursuant to the 1995 annual appropriations law, P.L.1994, c.67; provided  
23 however, that amounts collected in excess of amounts distributed shall be anticipated as revenue  
24 for general State purposes.

25 Notwithstanding any provision of law to the contrary, the payments to municipalities from the  
26 proceeds of the public utilities franchise and gross receipts taxes shall be distributed on the  
27 following schedule: July 15, 35% of the total amount due; August 1, 10% of the total amount

## 28 STATEMENT

29  
30 This bill requires the State to make an additional distribution of  
31 public utilities gross receipts and franchise taxes revenue during Fiscal  
32 Year 1996. The amount of the distribution is equal to the amount by  
33 which collections of these taxes have exceeded the State anticipated  
34 retention of \$275 million plus the \$685 million previously apportioned  
35 for distribution to municipalities during Fiscal Year 1996. In  
36 statements to the Senate Budget and Appropriations Committee and  
37 the Assembly Appropriations Committee on April 2, and May 22,  
38 1996, the State Treasurer indicated that the State estimates this  
39 amount to be \$45 million.

40 The distribution of the additional collections is to be made in  
41 proportion to the municipal distributions made from the \$685,000,000  
42 apportioned and paid earlier in the fiscal year. The supplementary  
43 distribution is required to be used by the recipient municipalities to  
44 reduce the local municipal property tax levy, which shall be reflected  
45 as a change in the municipal budget. The distribution method is  
46 identical to the method used to distribute the fiscal year 1995  
47 supplementary distribution.
