1 STATEMENT

2

3 This bill amends the statute that requires the installation of crossing
4 control arms on school buses, approved on August 6, 1996, to clarify
5 that the law applies to buses transporting nonpublic as well as public
6 school pupils. The bill also specifies that the requirement applies to
7 any agency operating school buses and to those school buses which
8 were originally designed to carry 10 or more passengers. Under the
9 bill, school bus operators would have 60 days after the bill is signed
10 into law to provide the Commissioner of Education with a list of
11 vehicles and an indication as to whether each vehicle is currently
12 equipped with a crossing control arm. A section of the statute
13 requiring the State Board of Education to adopt rules and regulations
14 has been determined to be unnecessary and is repealed.
