STATEMENT

24

25 This bill authorizes fire police to perform traffic duties at public  
26 events where their services may be requested to protect the public.  
27 Currently, fire police are specifically authorized to perform traffic  
28 duties from the fire station to, and at the vicinity of, a fire, fire drill or  
29 other emergency call, such as at the scene of a motor vehicle accident,  
30 downed wires, malfunctioning traffic signals or flooded roads, until the  
31 arrival of a duly authorized police officer. Under the bill, fire police  
32 would also be authorized to provide crowd control services when  
33 requested to do so at public events, including, but not limited to,  
34 parades, fireworks displays, fairs, field days and dedications of fire  
35 apparatus, equipment and buildings.

36 The bill would also require all members of a volunteer fire company  
37 appointed to the fire police to successfully complete a basic fire police  
38 officer training course before commencing their duties. The course  
39 would be required to be formulated or approved by the Division of  
40 Fire Safety in the Department of Community Affairs. A basic fire  
41 police officer training course has been developed by the division and  
42 is currently being offered on a voluntary basis.
