16
17 This bill directs the Secretary of State, in consultation with each
18 commissioner of registration, to establish and update, as appropriate,

20 program would be to maintain and keep up-to-date a secure and
21 accurate Statewide voter registration system.

22 Under the bill, the program, at a minimum, must provide for the

24 information obtained via voter registration information agreements
25 entered into by the secretary under current law and must provide for
26 the sharing of voter information among each county clerk and
27 commissioner of registration. The secretary, in consultation with
28 each commissioner of registration, is required to establish uniform
29 standards and procedures for voter list maintenance and
30 crosschecking. At a minimum, the program must permit a county
31 commissioner of registration to verify a new voter registration
32 applicant's information, update information in the Statewide voter
33 registration system, and remove duplicate, non-resident, or ineligible
34 voters from the Statewide voter registration system.

35 The bill also requires the annual report on the voter registration
36 system to the Governor and the Legislature to be submitted no later
37 than 90 days following the date of the November general election.
38 Under the bill and in addition to the requirements in current law, the
39 report is required to:

40 (1) evaluate the effectiveness of any voter registration
41 information agreements entered into by the Secretary of State;

42 (2) list the number of inactive and active voters in the State by
43 county, the number of registrants transferred to the death file by
44 county, and the number of registrants removed from the Statewide
45 voter registration system by county; and

46 (3) list the counties that are not compliant with the standards and
47 procedures for voter list maintenance and crosschecking established
48 by the Secretary of State.
