# NEW JERSEY STATE HOUSE & ANNEX ACCESS

New Jersey's State House is one of the oldest capitols in continuous use. Since the original structure was built in 1792, numerous additions and modifications have been made. In 1987, a major renovation restored the legislative portion of the building. Making the historic structure meet barrier-free access requirements was a challenge. In areas where a waiver was granted, alternate arrangements were made to ensure access for every citizen.

## LEGISLATIVE CHAMBERS, OFFICES AND COMMITTEE ROOMS

On session days, sergeants-at-arms are permitted to allow visitors using wheelchairs access to a chamber through the main entrance off the first floor hallway. Legislative Leadership offices, on the second floor of the State House, are accessible by key-operated platform lifts. The keys to both lifts may be obtained from staff in rooms L113, L116 and L214. The legislative chambers and committee rooms are equipped with built-in, ADA-compliant, FM-assisted listening devices for persons with hearing loss. Headsets and receivers are available when requested 24 hours in advance. Specific arrangements can be made by calling:

Sign language interpreters are available, provided the request is made at least five days prior to the tour. For tour information and reservations, call the State House Tour Office at 609-847-3150.
